Dr Eloy J Carlson  
Sunny - Stony Brook.  
- JUL 15 1983

Nobel Prize 1958.  
Dear Dr Carlson -

My reading, just now, of the  
Nobel selection process made me  
reflect that it was probably the  
most likely person to have nominated  
me, 25+ years ago.

I do not ask for more details;  
but at this interval I wonder  
if you can confirm this hunch.

He never spoke of such a  
matter to me; but as you know  
he could not have been more  
encouraging and supportive from  
the very inception of my career.

Yours  
John
