

Dept. of Genetics,
The University,
Glasgow, W.2.

22nd January, 1952,

Dear Lederberg,

Have you anyone in mind who might be
~~interested~~ *(or are you interested yourself?)* in spending eight months here? The
salary is quite enough to live on, as the local
people do, but clearly a combination of this
job with a fellowship to visit Europe would be
more advisable.

Kindest regards,

Yours sincerely,

S. Houte

*This could be a good combination
for someone wishing to attend
the Genetics Congress in Italy in
August 1953*
