Dear Josh,

The girls made your groups:

A₁B, M_s/M_s, P₂, CDe/CDe (R₁R₁), Lu(a-), K-,
Le(a-), Fy(a+), Jk(a+b+).

(We are a bit doubtful about the Jk^b result
as our current anti-Jk^b is not very reliable)

It was nice to see you both and
we did appreciate the wonderful talk
on Monday afternoon.

Yours

Ruth and Rob
