

February 23, 1953

Dr. M. M. Rhoades  
Botany  
University of Illinois  
Urbana, Illinois

Dear Marcus:

When we got back home, I checked immediately and found that we had not previously received the two papers (from Heterosis and J. Her., resp.) which are the subject of a small wager. In fact, I was surprised to find that I had not recently received any papers from you at all. In lieu of payment, please accept my thanks for the reprints you have provided for me, and my request to be put on your regular mailing list if you have one. Attached is a list of all your reprints I do have. (I have been able to manage with Erink's, but it would be a great convenience to have my own set).

M.M. Rhoades:

1933 Amer. Naturalist 67:1-4(?)  
1936 J. Genet. 33:347  
1942 Genetics 27:395  
1942 PNAS 28:433  
1938 Genetics 23:377  
1941 CSH SQB 9:138  
1945 31:91

I believe I do have a full set from  
Laughhan and Drew Schwartz.

\* 2 most recent, mentioned above (I have these home).

It was a pleasure to see you again soon; we hope to repeat it in about 2 months.

Sincerely,

Joshua Lederberg
