Mann Research Laboratories
136 Liberty Street
New York 6, N.Y.

Dear Mr. Mann:

At Dr. Boris Rotman's instructions, I am shipping (Railway Express postpaid) his sample of o-nitrophenyl-B-D-galactoside. My rough check is $350.1 - 277.7(\text{tare}) = 72.4$ grams. 5 grams are indicated as having been sold previously; another 5 grams may represent an order recently filled to the University of Wisconsin.

I assume he will have left you further advice. If not, you can contact him through me at the Genetics Department, University of Wisconsin.

Yours sincerely,

Joshua Lederberg
