Overlooking the magnificent Hudson River at West Point, amid revered scenes of mighty moments in American history. In a beautiful and inspiring location - on the Military Reservation of the United States Military Academy. Open to the public. Ample free parking.

POST CARD

Address

Dear J+E,  
Am attending a Conference on Physical Mechanisms Concerned with Conception-Immunity phenomena here. This morning I presented the major theories of Ab. formation. The elective theory caused a lot of discussion signifying how many of the members are ignorant of genetics. Felt like an orphan. Thank I did justice to your excellent paper in Scienc. Best regards,  
Bill Stone
