

Memo from
JOSHUA LEDERBERG

To: Prof G. L. Ada

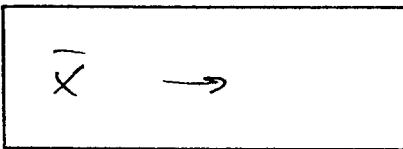

4/28/67

Virus in *Drosophila*

Have you any knowledge or rumor
of virus(-like agents) recovered
from *Drosophila* and assayed in
mammalian cell cultures?

I had some ~~with~~-hand report of
such as having been recorded
in the reports of the Curtin School,
but no corroborations.

Yours
(from your past!)
Sincerely,

J. Lederberg
