School of Medicine
Stanford University
Stanford, California 94305

Dear Dr. Lederberg:

Since July 1st has now passed and a new year has started, I wanted to write to say how sorry the members of the LPMB will be not to see you at future meetings and to thank you for the work you have done over these first two years of the Board's existence.

I believe these years have been of some use; whether in that time we have been as effective as possible I cannot yet decide, even for myself. I hope you will continue to let me or any of the Board members know if you feel there is anything we can do to help along the work of exploring the moon and the planets.

With best wishes

Sincerely yours,

John W. Findlay
