Dear Lynn -

It was such a shock - and, to us, surprise - to read about Kenneth's death in this morning's paper. We have been visiting for a few weeks, and I had hoped we might find time to renew a connection which has been all too far for the last few years. We had no idea that Kenneth was so ill at this time... and then saw the news report.

I am so sorry. Besides your loss, mine is a small one; but I will miss him. None was better able to jog my engraved - thinking with a quiver that would make me think in far more general terms - and after I thought I had already exercised all the tricks he had taught me.

Marquitta joins me in regret and sympathy,

Yours,
John.
