Re: Env. Qual. Council

I was delighted at the news of the
appointments of Travis et al.

When I called you I was not
aware of the brochure about
Tom Williams and I hope I did
not lead you to put your foot
in it. The situation is, in my view,
very bad government and even
worse politics. Would it be
impossible to get him on to your
staff, or CEQ's, after this? He's
a first rate person.
