Dear Dr. Lederberg:

I noted your recent grant from the Science Foundation and write to offer congratulations.

I would like to meet again with the Stanford Advisory group, perhaps in October, on either a Friday morning or Saturday morning, the 10th or 11th.

I am wondering also if in September you might be interested in appearing before the House Republican Task Force on Population Planning. We had a presentation yesterday from Dr. Shockley, who presented his arguments that the National Academy of Science should support research into racial heredity questions, and I am sure that the Committee would appreciate hearing the opposing views.

Best regards,

Paul N. McCloskey, Jr.
