Dear Pete--

OCT 3 1969

How about a raincheck? I have to catch an 8 AM plane Saturday, and it is rather short notice to pull together other people.

I have to admire your energy in suggesting 0730 for a Saturday morning; and it would be a way to filter out those less able or willing; but I could do a better job recruiting for a more civilized time. Would October 25 or Nov. 1 be possible for you? Do you want to suggest a more convenient place? (I would try, anyhow, to get a rounder table and make "breakfast" more incidental).

I see 3 main items for an agenda: 1) population control formats; 2) sources of "objective" evaluation of needs for science funding; 3) better communication between academia and Congress.

Yours, *J.P.K.*
