DEPARTMENT OF GENETICS
Professor Joshua Lederberg

January 27, 1970

Dear Miss Petchesky:

I was very pleased to see ISHA Bull. 7. You have certainly managed the most thoughtful, non-polemical overview of biological engineering I have seen to date.

I teach a course on this subject, which however will not be given again until Spring 1971. Is it likely that this ~~pan~~ bulletin will still be in print at that time, and if so would we have the facilities to order possibly 250 copies, and at what price? My own "Silliman Lectures" possibly might be out by then, and if so I would use them; so I am not prepared to enter a specific order at this time.

My own views on the subject have been continuing to evolve over the years, as you may note from the enclosures.

Sincerely,

Miss Rosalind P. Petchesky
