

Memo from

To:

JOSHUA LEDERBERG

Senator A. Ribicoff

APR 2 1971

World Models.

I very much enjoyed our talk at d inner with the Bazelons the other evening. Phil Handler also arranged a useful meeting with Ed David at the White House Science Adviser's office on the questions of crop innovations;, and I will be in touch with you further as may be useful.

On the matter of America;s place in the world, I would certainly encourage you to stress this in your hearings on trade policy; and again I will have some more coherent memoranda for you in good time.

Bob Bird has lined me up for testimony on 4-26 and I look forward to seeing you again at that time.

Sincerely,

PROFESSOR JOSHUA LEDERBERG
