Dave Hamburg may well
be in the strategic site for
followup; so I am sharing all
this with him. We both
thank you!

I had been in touch with
Jenkins before as one who
shows the sense of priority we
would give to "stateless war"; I
did not know he had gone into
this detail and surely will
keep him in mind!

Again, thanks.
(and hope I will not be
pestering you for return
copies !!!)
