--Win Turner

Dear Win:

- 1) Here is an item I hope you will call to Senator Muskie's attention.
We are working very hard right now on the products of chlorination of DNA and its turning into a fascinating study.

- - - - -

- 2) Has there been any further detail on this report? Is a copy available? Any further discussion in the Congressional record. I can use any leads soonest.

Sincerely,

Joshua Lederberg

W. TURNER

sent c/o Senator Muskie;
W. D.C.
