

Possibly Outline - Draft 1
Effect of Monoclonal AB 175
2-18-82 with Hankins

1) Table 1 I¹²⁵ Binding * N608-5

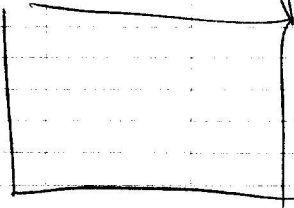

2) C⁴⁵ uptake = Dept.

3) Fig. Electrophoresis Trace

4) Table Electrophoresis Effect on
Meppesq.

5) Detail of AB

England

9) ~~Ne 22 uply~~

125
+ Feb

7) ~~Fluor~~ AB with NB-10A.

2-18-82

First conversation with Hainline about effects of AB
Possibly, Expts. MN will do

1. \uparrow Mepp AB
~~fully AB increasing amplitudes of N_2 spikes~~
- 2) Do I^{125} ~~full~~ binding to NB α 10A cells with
AB \uparrow or \downarrow mepps
- 3) Make do effect of AB \uparrow Mepp freq on N_2
~~uptake by NB α 10A cells~~
- 4) Make islet antigen
- 5) Test I^{125} ~~full~~ binding with AB \uparrow Mepp
on cells ~~at each~~. Functional N_2 \uparrow
channels
- 6) Test DibucAMP treated vs Untreated
NB108-15. Test I^{125} ~~full~~ Binding
