“ Public Health Service Update”
Presented to the 62nd Interagency Institute
For Federal Healthcare Executives,
St. Louis, Missouri
March 18, 1983

The Interagency Institute for Federal Healthcare Executives is an annual occurrence in St. Louis, Missouri, and I took part in this on several occasions during my double tenure as Surgeon General. This lecture is exactly what it purports to be – an update of the Public Health Service for others who might not know as much as they should or would like to about the function of the Public Health Service, in spite of the fact that they are engaged in Federal Healthcare.
