

October 27, 1974

Dear Dr Swan:

This is an anniversary year. It has now been 20 years since my surgery. In many ways it seems like only yesterday.

Life has been very good to me, I have three kids that have grown to adults without giving me a minutes trouble like so many parents have had with hippies, drugs, etc. I now have four beautiful grand-children, that help to keep me young. Debbie my youngest is now in her first year at the university I have a very good job as secretary for six Doctors who staff our emergency room.

But most of all, thanks to you, I have my very good health. Except for losing Roy so early in life its all been good.

Traveling is still my hobby and I hope to get to Colorado

again in the future, and hope to  
see you next time.

Remember me to Mr Blount,  
and I wish only the best for you  
always

Sincerely  
Clara Bell Presley
