

MAIMONIDES HOSPITAL OF BROOKLYN
GH-89

FROM Fred Grubel

DATE March 5, 1962

TO Mr. N. Herskovits

SUBJECT Pacemaker Fund

The hospital's Treasurer approved that an amount of \$650. be transferred from the General Research Fund to the Pacemaker Fund in order to cover the expense of the purchase of a pacemaker for an urgent service case. It is understood that this amount be repaid to the General Research Fund over a period of time if and when the Pacemaker Fund has excess monies available.

You also will want to note that private and semi-private patients requiring pacemakers should be charged at cost plus 15%, that is, at the present time \$650. plus 15% for an internal pacemaker and \$350., plus 15% for an external pacemaker. The proceeds from these charges will be deposited in the Pacemaker Fund. The accumulated surcharges should enable us to purchase pacemakers for ward patients who cannot afford the full price.

A handwritten signature in dark ink, appearing to be 'G. M. S.', is written on the right side of the page.
