in Kings and
Queens counties,

§ 26. The lands which shall be occupied by, or used for the said water works, in Kings and Queens counties, shall be taxed at the value of the adjacent lands used for agricultural purposes, exclusive of any improvements thereon, and all such improvements are hereby declared to be exempt from taxation, except that in the county of Queens, dwelling-houses and machine and pump-houses, and machinery in such machine or

pumping houses, upon such lands, may be taxed in the same manner as against individuals.

§ 27. The Board of Water Commissioners created by the act entitled "An Act for the supply of the city of Brooklyn with water, passed February eleventh, eighteen hundred and fifty-seven," are hereby authorized to change the plan for such supply, and to substitute a closed conduit for the whole or any portion of the open canal east of the present conduit. They may, upon the change of such plan, arrange upon such terms and conditions, and extend the period for the furnishing of such supply, as they may see fit; but no contract made by them for such closed conduit, shall increase the cost of the water works to exceed the sum of five hundred thousand dollars for such closed conduit, and such increased cost shall be met by a like increase of the amount of the bonds to be issued, as provided by said act; such increase of bonds shall be in addition to the amount named in the first section of this act.
