LIBRARY

INFORMATION COPY

Action copies have been forwarded to  
Office of the Surgeon General, Occupa-  
tional Hygiene Branch for approval and  
execution.

Project No. 9

20 October 1945

ARMORED MEDICAL RESEARCH LABORATORY  
Fort Knox, Kentucky

Project No. 9  
SPMEA 741-3

20 October 1945

SIZE INCREASE OF MEN WEARING VARIOUS CLOTHING COMBINATIONS

1. PROJECT NO. 9 - Anthropometric Measurements. Partial Report.

a. Authority: Letter Chief, Combat Vehicle Branch, Development Division, OCO-D dated 14 August 1945.

b. Purpose: To furnish data on increase over nude measurements with various clothing combinations.

2. DISCUSSION:

The Armored Medical Research Laboratory was requested by Ordnance to furnish data on increase in size resulting from various clothing combinations, the data to be used by tank and vehicle designers in arriving at spacial requirements for vehicle crewmen.

Many of the measurements are subject to wide variability depending on snugness or looseness of fit, hang of cloth, etc. Table I gives minimum increase tabulation for certain clothing combinations. Figures 1 thru 9 give general idea of increase resulting from factors other than cloth thickness alone. Table II is reproduction of Army Air Force data on amounts added to nude dimensions by typical clothing outfits--Memo Report, Engineering-49-695-32, dated 18 August 1943.

3. CONCLUSIONS: None

4. RECOMMENDATIONS: None

(1) These data were calculated from maximum thickness measurements with a micrometer on one set of G.I. Clothing; unless otherwise noted.

(2) Shoe Height is a mean of 32 Height measurements on men with and without shoes.

(3) Head Height gains are from measurements on one man with and without head protection.

(4) From foot and shoe measurements on one man.
