

FROM THE DESK OF.....

MIKE GORMAN

April 8, 1986

Dear Ed:

I enclose the requested comments on ATTACHMENT G -- the Topics Discussed at the January 16th Dinner Meeting of the High Blood Pressure Coordinating Committee.

I want to be very frank about this. I think that this kind of arrangement in which a half a dozen members congregate at a series of tables does not produce much. This was proven back at the 1977 Houston Annual Meeting. It was really a bust then.

I presume that you stuck me at the lousiest table. There were two absentees, so we had four people talking around in circles. Only two people made any sense -- Dr. Roper from the National Medical Association and your humble correspondent.

Looking forward to seeing you on April 21st.

Cordially,

Mike

Enclosure
