The Honorable John Edward Fogarty  
House Office Building  
United States Congress  
Washington 25, D.C.

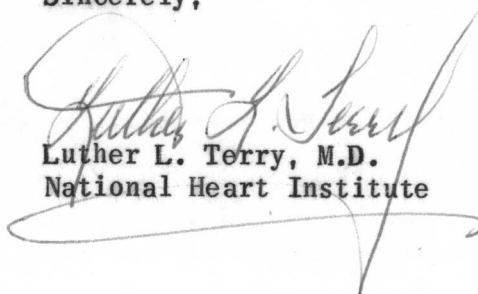

Dear Mr. Fogarty:

Just a note to give you a report on your recent examination here. As I indicated to you at the time, there were no physical findings of significance. The x-rays of your stomach and upper intestines revealed no evidence of ulcer. The urine examination was entirely negative. The blood count was normal in every respect. As I indicated to you at the time, the electrocardiogram showed no significant change since the tracing taken in May.

In summary, I think this check-up examination indicates that everything is going along well. My only specific advice to you would be to watch your calories and be sure and not gain any weight.

Since Dr. White is interested in having a complete file of your electrocardiograms, I am taking the liberty of sending a copy of this tracing to him.

Sincerely,

  
Luther L. Terry, M.D.  
National Heart Institute
