

4/6/32

Dear parents,

I wrote you a letter a week ago to-day and I get an answer to-day. There are several at home that can write - surely somebody can take a few minutes off to write.

For your own interest and enlightenment I am going to itemize my average current expenses per month.

I keep the car in the garage and they wash it each week. There is no other place to keep it and I am afraid to keep it in front the hospital as this is the worst neighborhood in New Orleans. It is known as "Irish Channel." The garage bill is \$5.00 per month. My gas bill averages \$5.00 per month. I finally got the lady that owned the garage to sell me gas at a 2¢ discount as I told her we had a filling station at home. So I get my gas at a reduced price. The oil and greasing I do myself. I buy this wholesale.

Each month we change sections and have to buy on the average of 2 to 3 books and they average in price from \$6 to \$12.50. I usually buy one and borrow the others. At the beginning of the year I bought a set of books for \$30.00 and have been paying \$3.00 per month for 10 months.

My laundry bill amounts to \$2.00 per month. I make out now for 2 weeks before sending my laundry to the wash. I have also managed to cut my pressing down and this averages about \$1.50.

I was losing so much weight that I decided to drink a pint of milk each night. I contracted with the station cafe across

the street to sell me a pint of milk each night for 5¢ per pint. This ordinarily sells for 10¢. This averages \$1.50 per month. By the way I am beginning to get back to normal in weight again. I become so disgusted with the food here sometimes that I am forced to eat outside. This averages about \$2.00 per month.

My haircuts average \$1.00 per month.

There are miscellaneous expenses about school such as an offering for some sick member of the class, certain paper, etc average about \$1.00

This totals an average of about \$30.00 for my immediate expenses each month. There are also other expenses that usually come in. This month we had to pay \$4.50 for the senior banquet and pay for the invitation which will amount to about \$2.00.

I also have to pay a dentist bill of \$15.00 which I am not at present able to pay in full as my other expenses are more pressing. This will give you an idea how I am spending the money. And try as I will it just seems impossible to cut it down. From what I understand from other fellows I believe I am getting by much better than they are besides not paying \$25.00 month for board and room.

As you probably know I have not taken out insurance on the car because I could never see my way clear. I guess that will just have to go for a while.

Yours loving son,

Michael DeBakey
