S. S. "CEDRIC"

Dear Patm

Bad man!
We were desolated not to
have you with us at
Oxford. We had a charming
time. You will be sorry
to hear that I have decided
to take the Chair of Medicine
at Oxford - a restful, quiet
spot in which to end my
days - I hope - without
the rush & bustle of
my life of late years.

of which I have tired. &
of which has tired me
after 30 years of hard
work my gray cortex
is full of pigment & detritus
full sorts. Some will
think the move an
evidence of G. P., but I
do not care. Mrs. Allen
approves & that means
much. It will be hard
to break away from
all old friends, among
whom you & Mrs. Paton
rank high. I do not
leave until next year.
In what a charming place

You have recalled. I have sent in your
letter to Mrs Oles, whom I join at
Pointe à pic next week.
Love to the Barkers. I wrote to B. so
he may have told you of my lapse

Love to Mrs Putnam

Yours sincerely
W Oles
