THE SULPHUR REMEDY.—Dr. Terry of Detroit has written a second letter reiterating his statement that Dr. Bird's sulphur and carbon pills contained morphine. However, Dr. Bird, not to be outdone in the way of letters, writes to the editor of the Chicago Journal, acknowledging that narcotic effects have been produced by sulphur pills, but denying that the pills prepared by him contained morphine, or anything but four parts of sulphur and one part of charcoal. His letter has appended to it a certificate, signed by seven of the apothecaries of Chicago, that the pill prepared and sold by them as Dr. Bird's Sulphur Pill, has never contained any other active ingredient than the sulphur and charcoal, in the proportions, as mentioned in Dr. Herrick's letter, published in the Chicago Journal for May 29.

A NACROSTIC.

Pieria's daughters ne'er a theme have sung,
 In breathing numbers from the golden lyre,
 Like this for which my harp all rudely strung,
 Essays to pour its trembling notes along—
 Science our theme! Her works our thoughts
 [inspire!

Compared with her, when to the healing art
 United—where is the power on earth
 Remaining, which yields or can impart
 Ease to the writhing pain, joy to the heart?
 Disease by her alone is driven forth!

Far through the earth her generous power is
 [known,
 O'er every land her ever conquering touch
 Roots up disease, and hurls it from its throne!

Long has she battled with that scourge the Piles,
 In vain, but now with Upham's magic art,
 Fierce racking pains give place to cheerfu
 [smiles;

Each former sufferer owns a grateful heart.

Dr. Upham's **VEGETABLE ELECTUARY**, or
 internal remedy for the Piles, prepared by A. Upham,
 M. D., a regularly educated physician, is a certain
 cure for the Piles, whether Bleeding or Blind, In-
 ternal or External, and also for other diseases of a
 similar nature, which are frequently found in con-
 junction with Piles—such as

INFLAMMATORY DISEASES.

Although the **ELECTUARY** was originally pre-
 pared for the cure of **PILES**, yet it has proved itself
 to be a medicine far superior to all others, in all
 diseases of an Inflammatory character, with a deter-
 mination of blood to any particular part or organ.—
 In Inflammation and Congestion of the Liver and
 Spleen; Inflammation, Soreness and Ulceration of
 the Stomach, Bowels, Kidneys and Bladder; in In-
 flammatory and Mercurial Rheumatism, it is the best
 medicine ever discovered.

TO MARRIED LADIES

Married Ladies are almost invariably
 that painful and injurious disease,
