

#### DISORDER IN SHEEP.

The disorder called the SCAB in sheep is so injurious to the animal, and so destructive to the wool, that in a season when this distemper is liable to spread itself, it may be acceptable to the farmer to know one recipe, in addition to those which have been long had recourse to in many parts of the country. ONE POUND OF QUICKSILVER, HALF A POUND OF VENICE TURPENTINE, HALF A PINT OF OIL OF TURPENTINE; these ingredients are to be rubbed in a mortar till the quicksilver is well incorporated, the manner of doing which may be learned of any apothecary.---The mode of applying this remedy is, by dividing the wool, and rubbing a little of the liquid into the skin with the finger all the way from the poll along the back to the tail, and from between the shoulders down the arms as far as the wool grows, and from the rump down the legs in like manner. Once or twice using is sufficient, but in very bad cases it must be applied on the first. A more convenient method than the above is, to rub some of the composition on the naked part of the thighs and fore legs; but it requires rather more judgment. So much is this recipe relied upon, in Lincolnshire, that there are people who undertake the complaint in the large sheep of that county at five shillings per score---no cure, no pay. The final quantity of wool touched in applying the liquid will receive a slight blue tinge of no consequence in its sale. It is not to be made use of after Michaelmas; and if a little was applied before that time, even when the sheep are not infested, it might be advantageous as a preventative.

Mr. KNIGHT, in his report of the transactions of the Horticultural Society, mentions an improved method of cultivating the Alpine Strawberry. The process consists of sowing the seed on a moderate hot-bed, in the beginning of April, and removing the plants, as soon as they have acquired sufficient strength, to beds in the open ground. They will begin to blossom after Midsummer, and afford an abundant late autumnal crop. Mr. KNIGHT thinks that this strawberry ought always to be treated as an annual plant.

Friday night the house Mr. PAGE, grocer, in Norton Falgate, was broken open, and the iron chest robbed of 500l. in cash and bank notes. The daring ruffians sat down in a room, drank several bottles of wine, and then decamped, leaving two candles burning.

NATIONAL LIBRARY OF MEDICINE

Bethesda, Maryland

*Pages*  
No. 1.---*Rice and Herrings.*

PUT one pound of Rice in three quarts of boiling water; let it remain for twenty minutes, then skim the water, and add three or four Herrings, chopped in small pieces, a little allspice, and let it simmer gently over the fire, closely covered, for an hour and a quarter.

No. 2.---*Baked Rice Pudding.*

Put a pound of Rice into three quarts of skim milk, and add four ounces of treacle, (or a little pepper and salt) and bake it; it will make nearly eight pounds of pudding, and will cost about a penny a pound.—The Rice is soaked over night in water.

No. 3.---*Rice and Barley Porridge.*

Put one pound of Rice and one pound of Scotch Barley into two gallons of water, and boil them very gently for four hours, over a slow fire; then add four ounces of treacle, and one ounce of salt, and let the whole simmer for half an hour more: it will produce sixteen pounds in weight, and will cost rather more than a halfpenny a pound.—This is much used at Montrose, and in some other parts of Scotland, and has been greatly approved.

No. 4.---*Sweet Rice Pudding.*

Put a pound of rice in five pints of cold water, and boil it gently for two hours: by which time it will become of the consistency of thick paste; then add two pints of skim milk and four ounces of treacle, and boil the whole very gently for another hour: it will produce near nine pounds of sweet rice pudding, and will cost rather more than a halfpenny a pound.—This is recommended as a cheap, wholesome, and palatable food for children.

Tripple Dust Soil for preserving the polish  
of a bridle.

To make wine cool in hot weather

One ounce of crude Sal armoniac  
half an ounce of Nitre & a gallon of water

Cement for Corks

3 pounds of Resin a pound & quarter of  
Bees wax & one candle. Boil it well in an Iron  
Skettle & dip in the bottles. Red lead will improve  
the colour. This quantity is about sufficient for  
a pipe of wine.

NB. On 17 Sept: 1799 - six ounces of Resin and  
two ounces & an half of Bees Wax & a  
piece of Candles will do for about  
3 or 4 dozen Bottles.

<sup>var half</sup>  
1 <sup>lb</sup> of Resin - 12 oz: of Bees wax - will do for  
half a Pipe of Port-Wine

Receipt for making Sasing Cement by Chalici

2 lbs - Resin -

2 Ouz: Bees-wax -

A Small Candle, or a Lamp of Suet.

All boiled up together till properly dissolved, the Bottles to be dipped in  
quickly, to prevent the Bottles flying. NB. Care must be taken not  
to suffer any water to drop in while boiling, as that will make  
the Cement boil over & may occasion some Accident. - It is

For the Worms <sup>M<sup>o</sup> Cha' Wheeler</sup>

Two Drachms of Wormseeds, forty Grains of Indian Rhubarb mix'd up in near half a Pint of Treacle. a Tea spoonful to be taken at night & in the morning fasting, more for a grown person. Stir it well before it is given.

For the Worms <sup>M<sup>o</sup> Chiselden</sup>

The worm powder which is Bearsfoot must be taken every other morning fasting till the patient has taken 8 or 9 doses.

They may be taken in any liquid, require no particular regimen, nor any confinement, their operation being very gentle. One grain is a proper dose for a child of a year old, 2 grain for a child of 2 years old & so on encreasing a grain every year till they come to 8, & you need give no more than 8 to a child of 9 or 10 years old. From 10 to 15 encrease a grain every year, & you need give no more than 15 grains to a grown person.

Lady Dering

For the Worms

Pulvis Basilicus to be given in a spoonful of bread & milk, milk porridge or any other of a thick substance.

The quantity to be taken depends upon the age. At 1 year old 6 grains & to proceed by degrees adding 2 grains at a time resting between each dose 2 days, to a grown person at first 15 grains & by degrees (or at once) 20 grains & if that does not do add a few grains of Jalap. For children add Rhubarb if wanted.

Mrs H. Thomson

For the Worms

Oil of sweet almonds, Port wine, coarse sugar, & lemon juice of each a table spoonful for a grown person & a desert spoonful for a child to be taken nine mornings fasting.

For the Cholick

Twenty drops of Balsam of Capivi on a lump of Sugar.

For the Ague

Venice turpentine & frankincense of each  
2 pennyworth boild to a salve spread on a  
peice of leather cut in the shape of a  
heart & laid on the pit of the stomach.

For the Ague M<sup>o</sup> F. Wheeler

A Drachm of Bark half a drachm of Venice  
Treacle, mixd in three spoonfuls of Orange juice  
& three spoonfuls of strong white wine.

First give an emetic, & then let this be  
taken as near before the fit as possible.

Infus. Senae 4 ounces <sup>℞</sup>

Tincture Senae 2 ounces

Talis Amari, or bitterd

purging Salts — 1 ounce  
m.

3 Spoonfuls every three hours, till it Operates

Emplastrum Cantharidis inter Scap. & Blister,

G. B.

H. W.

A diet drink to correct sharp humours  
in the blood.

Roots of sarsaparilla sliced half a  
pound guaiacum shavings & saffron of  
each two ounces, antimony ~~of~~ carefully tied  
in a rag one ounce, to the above add  
eight quarts of water, which must be gently  
boiled till reduced to four quarts, strain  
& when cold bottle it. One quart to be taken  
every day, one third before rising, one at  
noon & one at night when you go to bed.  
Avoid salt or savoury meats, & all sorts  
of vegetables except potatoes. Drink white  
wine & water in preference to small beer  
& drink no Port wine.

## Purging Powders Dr Ash

Two Drams of Magnesia alba, one Dram of Rhubarb, mix them well together & divide them into six papers.

Two Drams of Magnesia alba, ℥i℥ of Sulphur one Dram & a half, mix them well & divide into six or eight papers.

## Pills for Bilious complaints

One oz & a half of aloes mastick half an oz. powder these ingredients separately then incorporate with a proper quantity of Syrup of wormwood to make a Mass. 3 grains in each pill. One, two, or three pills to be taken according to the strength of the patient or as they operate, every Day at dinner or supper. They never should be taken fasting. Great care must be taken to prepare the aloes properly either with the juice of violets or strong tincture of liquorice, the latter is frequently used.

## Tincture of Rhubarb

One ounce of rhubarb cut in small slices,  
one drachm of Saffron, one ounce of cardamom  
seeds & husks bruised together, put into a pint of  
brandy. Let the ingredients & brandy remain together

### For the Rheumatism

A tea spoonful of volatile tincture of  
guaiacum in a glass of white wine at night &  
in the morning. B. Wilmer.

## Auxhams Tincture

- 2 ozs of the best Bark in powder
- 3 Drachms of Snake-root
- 4 Scruples of Saffron
- 4 Scruple of Cochineal
- 1 oz 1/2 of Orange peel
- 20 ozs of the best Brandy

Infuse in a bottle close stop'd 10 days at least  
before it is fit for use.

Three grains of Rhubarb, & two grains of ginger to  
be taken about one hour before dinner

## Saline Draughts

3 Spoonfuls of mint water 30 grains  
of salt of wormwood the juice of one lemon  
sugar to your taste

20 grains of salt of wormwood a little  
sugar & the juice of one lemon. Dr Warren.

For a sore Throat or swelling in the glands

Dr Ash.

Half a Lt of salt petre 2 Drachms of  
flower of brimstone, melt the salt petre in a  
cruicible & deflagrate upon it the brimstone little  
by little, then put upon it powder blue sufficient  
to colour it stir it all well together & put it  
into a mortar (or vessel capable of bearing the  
heat) to cool, make it into little thin cakes  
or drops, & when you have occasion to use it  
take a bit the size of a hazel nut & let it  
dissolve in your mouth swallowing the spittle.  
Repeat it occasionally.

## Eye Water

Mr Snow

30 Drops of Laudanum  
6 grains of sugar of Lead  
1 oz of Elder flower water.

When the eyes are much inflamed, bathe them with this Collyrium night & morning.

A most excellent eye water <sup>Mr Viner</sup>

Take 3 Drachms of Lapis Tutia in fine powder 3 Drachms of aloes in do, 2 Drachms of white sugar candy 6 oz of Rose water 6 oz of white <sup>wine</sup>, put them into a clean bottle well stop'd & set it in the sun for the space of a month, strain it through a fine rag & use it night & morning dropping it into the eye with a feather.

## Eye Water

Mr Wether

A table spoonful of camphorated sp<sup>ts</sup> of wine  
a tea spoonful of Goulard's extract, & a quart of spring water

For Chilblains

One third part Spirit of Turpentine —

Two thirds — Spiritus Imperatori —

## For the Tooth ach

Two grains of powder'd Camphor, one grain of Opium, beat into pills with mucilage of gum arabic.

## To clean Plate

### Crocus Martis

To preserve Shoes & Boots ~~from~~ when laid by  
for any time — Half a pound of beaten Suet

A Quarter of a pound of Bees-wax  
about a Table Spoonful of Ivory Black  
to be rubbed on with the hand — Assasin  
Blacking

Ad of a lb of Ivory Black 3 or 2 ounces of  
coarse sugar about a pint & half of mild beer  
warm the beer & pour it on these ingredients  
when it is grown thick add a dr of a pint  
of beer & a little sugar, add again & again  
till it gets thin

### For the font

To one Pint of good Brandy, and one pint of old  
Mountain wine put two ounces of Hura Picra — Let  
this Mixture stand for 3 or 4 days either in the Sun  
or before a Fire, after shaking it, when it has  
settled, take a glass of the clear liquid at going  
to Bed, It is intended to act as a purgative the  
[See Page A]

## For a raw sore Throat

Two ounces of Pearl Barley, & an ounce of Gum Arabic put into 3 pints of water & boild to a quart, add a little Black Currant Jelly.

## Sperma-ceti Draughts

Take 2 ozs of pearl barley, wash it clean put to it a pint of water, boild it near a q<sup>r</sup> of an hour, then pour that water away & put to the barley 3 pints of cold water, boild it slowly till it is reduced to a wine q<sup>t</sup>. then strain it off

Take an oz & half of Sperma-ceti, put it into a marble or stone mortar with the yolk of a new laid egg, beat it with a wooden pestle till it is quite dissolved, put the barley water (when quite cold) to it, a spoonful at a time stirring it about to mix it well, add sugar candy or loaf sugar to your taste, & if your lungs are much oppress'd, 2 ozs of oil of sweet almonds or sallad oil. Bottle it & set it in a cool place

Take a pretty large tea cup full 3 times a day shaking the bottle very well before you pour it out. If it is cold on the stomach, put 2 or 3 spoonfuls of the best brandy to a quart.

For Spasms in the Stomach

Take of the tincture of gum guaiacum 12  
Drams, camphorated tincture of opium 6 Drams  
Spirits of vitriolic ether half an ounce, mix  
them together - The dose is 2 tea spoonfuls  
twice a day in a small glass of water.

To prevent Boots letting in Wet.

A Quarter of a Pint of Currows Oil - a Quarter  
of a Pound of Tallow, half an ounce of Bees wax, &  
One pennyworth of Oil of Turpentine & some Lamp black.

Boyles Receipt for dimness & Rheum in the Eyes.

One ounce of Eyebright finely powdered, half an ounce  
of sweet Fennel seed powdered, Two drams of Nutmeg,  
two ounces of fine Sugar rubbed in a Mortar altogether,  
16 or 18 grains twice a Day.

For a fattening Calf.  
Oil take beat in a Mortar & a  
little barley flour - mixed up with  
Lard Oil - or a little mild

For a fattening Calf. Beer - twice a day after  
suckling - <sup>or</sup> ~~make up~~ <sup>make up</sup> ~~rough~~  
Chalk & Barley Flour made into a Paste with whole  
bread, or Yeast, of the size of a <sup>for 5 or 6 days</sup> ~~Pigeon's egg~~  
about the size of a Walnut.

Take of the Suction Suck 3 fourths - & one  
fourth - Bees wax - dissolve it

Two ounces of Mutton Suet - One ounce of Bees wax,  
simmered together 'till melted - rub it in with the  
hand & round the Seam with a rag.

Tallow half a pound - Hog's lard four ounces - Turpentine two ounces -  
New Bees Wax two ounces - Olive Oil two ounces - Palmer from  
Mr Bullock.

1 A) foet  
next morning. If it fails of that effect, repeat the  
dose next night. Should it not prove too strong, it  
may be taken with good effect every other night for at least  
a week. — William Rose, Daventry, Decr-1789.

MS I have never had the foet to confine me for three days  
since I first used it (which is now two years & 6<sup>mo</sup> ago!)  
tho' I was never free a twelvemonth together from a  
severe fit for 12 years before. W. R. 1/13/

---

Evans's Worm-Powder

One paper to be given to a child when drooping  
with the Measles - 2 doses in 3 or 4 days after. Evans.  
Keep the B. - D. by two evacuations daily, if possible  
without medicine, if not take the Juice of a pintney of Lemons  
Electuary occasionally, or five grains of rhubarb every night.

Summori Pills - 2 every night for three weeks / from  
Apothecary's Hall / for the Scars. — W. R.

{ Succotrine Aloes - One ounce -  
Antimonial Powder, one drachm.  
Simple Syrup. —

{ Mix'd well together in a Marble Mortar —

{ 5<sup>th</sup> James's Analeptic Pills. — Two or more for a dose.

For a Blister -

The Bark of the Meserion Root - Scraped & steeped 5 or 6 hours in cold vinegar - apply it to the Arm covered with an Oily or Plaster - change it once in 24 hours - If it does ~~not~~ produce a discharge, change it twice a day. -

---

25 Cordial Balls for Horses.

Take Turkey figs, Spanish Liquorice, anniseeds, and Liquorice powder, of each four ounces, Carraway seeds, Elacampane, and anniseeded Balsam, of each two ounces, Saffron, ginger, in powder and oil of anniseeds of each six drachms honey to form a mass and divide it into twelve balls.

One to be given in a morning fasting on hunting days. Mr Fitch's Coachman. Domet  
For a Cough.

One

## Wound Water

Put two ounces &  $\frac{1}{2}$  of Roche-Alum, & three Quarters of an ounce of White Coppras into two Quarts of Spring Water, boil it a quarter of an hour. Beat half an ounce of Camphor with a little Sallad Oil till tis fine, and put it into the water when you take it off the fire. When cold bottle it. It will keep for years. - It should be made warm when you use it. Dip a Cloth or lint & lay it to the sore. - It is good for any greas Wound on Man or Beast. A.C.

## Cure for Knot in Sheep.

The following is given as an infallible Cure for the Knot in Sheep. - viz. Take five grains of Calomel, with two grains of Opium, made into a Pill. - The Sheep should be removed upon dry land, and, whilst taking the Pill, should be fed with Malt, Corn, or good hay. If the first dose should be insufficient, it may be repeated, and an additional grain of Calomel may be given with safety. But the only effectual prevention is a perfect draining of the land. The Monthly Literary Bazaar  
Oct. 14 - 1809 - Magazine

Foment your eyes at night when you go to bed with  
an infusion of Elder flowers — put half an ounce of the  
flowers into a pint of boiling water, & Strain it off  
for use when it is cold — foment your eyes by  
putting a doubled rag moistened with this Infusion  
made warm, to your eyes, & when one rag grows  
cool, to put on another, & continue this for ten  
minutes — wash your eyes two or three times in  
of day with Rose Water & brandy — put one  
Spoonful of brandy into nine Spoonfuls of Rose  
Water — Take an Ounce & half of Infusion  
of Sena with two drams of  $\phi$  Tincture of Sena  
every other morning for three times. This will only  
purge you gently, which is preferable to strong  
purging in your case. R. W. Feb 4 - 1794.

I recommend it to you to lose 9 ounces of blood  
by  $\phi$  lancet, & to put a blister between your shoulders.

.. Drink no malt liquor on any Account. Let your  
.. Beverage at dinner consist of two glasses of wine  
.. diluted with three half pints of water. On no  
.. Account drink any more wine or Spirituous liquors  
.. in the course of the day; but, if you want more liquid,  
.. take cream & water, or milk & water, or lemonade  
.. with tea, Coffee, Chocolate. Use the warm bath  
.. twice a week for half an hour before going to bed,  
.. at the degree of heat which is most grateful to  
.. your Sensations. Eat meat constantly at dinner,  
.. and with any kind of tender Vegetables you please.  
.. Keep the Body open by two Evacuations daily, if  
.. possible without medicine, if not take the  
.. Use of a pintney of lenitive Electuary occasionally,  
.. or five grains of Rhabarb every night. Use no  
.. violent Exercise, which may subject yourself to  
.. sudden Changes from heat to Cold; but as much  
.. moderate Exercise as may be, without being

"much fatigued or starved with Colds. Take  
some Supper every night; a small quantity of  
Animal food is preferred; but if your palate  
refuses this, take vegetable food, as fruit-pie,  
or milk; something should be eaten, as it might  
be injurious to you to fast too long."

"Many persons have laughed at the idea of my  
perseverance in a System, which has not been  
able to CURE the Gout after five <sup>years</sup> ~~years~~ trial;  
but such Persons are either ignorant of what I  
before suffered, or totally unacquainted with the nature  
of the disorder. Under the blessing of Providence, by an  
adherence to your Advice, I am reaping all the  
benefit you flattered me I might expect from it,  
viz. my Attacks less frequent, my Sufferings less  
acute, and an improvement in the general State of my  
health. — I have been particular in this Account of myself  
at your request, and am, Sir, Robert Wilmet.  
Mortley, near Derby; Darwin's Zoonomia Vol. IV P. 216.  
Feb 10<sup>th</sup> 1795

## Plaster for a sore Throat

M<sup>o</sup> C Wheeler

4 ounces of mutton suet from the kidneys  
3 ounces of fresh butter, 4 ounces of brown resin,  
a quarter of an ounce of yellow bees wax. Cut the  
suet, melt it on a slow fire in an earthen pipkin  
then strain it & add the butter, stirring it on the  
fire with a stick, when they are well mixt add  
the resin & wax, stirring till they are thoroughly  
incorporated. When cold spread it on a linnen rag  
3 inches broad & reaching from ear to ear. Put as  
much flannel over it as will keep the throat  
warm, change the plaster every 12 hours.

It usually relieves by bringing out a heat,  
avoid scratching as much as possible.

## An excellent brown Salve

One pint of sallad oil, half a pound of red lead,  
2 ounces of Burgundy pitch, 2 ounces of bees wax  
1 ounce of resin, Let the oil & lead boil till it  
is black, then take it off the fire & put in the  
pitch resin & wax, a little at a time, stirring it  
all the while, & when it is dissolved set it on

the fire again & let it just boil. Pour it into cold water & work it up into rolls

Add 2 or 3 spoonfuls of vinegar after the salve is taken off the fire.

### White Ointment

Take a pound of may butter unwashed & not salted, work it very clean from the milk, melt it & pour off all the clear, then set it over the fire again with 2 ozs of white lead finely powdered. Let it just boil, then take it off & put to it a drachm & half of camphor, & stir it till it is quite cold.

### The Black Salve

Take resin, frankincense, & burgundy pitch of each half a pound, stone pitch three quarters of a pound, bees wax two penny worth, mastick & Venice turpentine of each three penny worth.

First shave the wax thin & set it on the fire, beat the resin small & put it into the pan to the wax stirring it some time, then put in the frankincense & Burgundy pitch both being beaten, then the stone pitch & mastick when they are beaten to a powder.

When these things are all melted, put in the  
Venice turpentine, & 4 spoonful of the best sallad  
oil, then set the pan over the fire again & let  
it have three boiles stirring it well, then strain  
it into cold water & make it up into rolls, first  
rubbing your hands with butter to prevent its  
sticking to. — This plaister will cure any sore  
breast, It will disperse the swelling & pain, &  
if it breaks will heal without tents, if thus  
applied. Spread it on sheeps leather, as large  
as will cover the breast all over, tho it be sore  
but in one part. Cut a hole for the nipple &  
anoint the breast with butter before you lay it  
on. If the breast be not broke, you may let the  
plaister lay on a week; it may perhaps be painful.  
When it is broke, take it off & wipe the plaister  
clean & lay it on again. If it runs much you  
may change the plaister every 4 or 5 days as you  
see cause. A woman that gives suck may use this  
without danger. Let her breast be drawn by a

child or any other body, for it will not hurt  
either. — This salve is proper for Boils.

### Salve for a Burn. <sup>Mrs Cage</sup>

Take a lb of bees wax, scrape it thin & put  
it with a qt of reats foot oil into an earthen  
pikin, set it over a clear fire till the wax is  
totally dissolved, then add to it 6 oz of Lapis  
Caliminaris, this last ingredient must be put in  
very gradually or it will sink to the bottom, & you  
must likewise keep stirring the salve from the  
time you put the powder in till it is cold.

When you have occasion to use it, spread it  
thin on fine linnen & apply it to the part affected  
When you remove the dressing cut the blisters  
& let out all the water as often as they shall  
rise & if there is much discharge, wash the part  
with warm milk & water. Unless the plaister gets so  
wet as to endanger its coming off once a day is often  
enough to change it.

Hot Sores in the Gums (A)

Scarlet-Pose leaves in a tea-pot of warm water -  
add a little Vinegar to the taste - touch the  
Specks in the Mouth with Elixir of Vitriol on the  
top of a Stick. Sharp.

Directions for cleaning Buckle; Sugar'd Cloth

Take a ~~Span~~ Sponge or a Cloth, and wash them  
well with soft water; then rub them quite dry  
with a clean cloth. - When very dirty, use a  
soft scrubbing Brush and a Lather of Soap;  
always wash the Soapy water clean off, and rub  
them dry, as before directed.

Huxham's Tincture of Bark

Two Tea-Spoonfuls of it - & two Table Spoonfuls  
of plain water - once or twice in a day -  
an hour before dinner -

---

A Table Spoonful is half an Ounce -  
A Tea-Spoonful is half a dram.

To make Paste

Two Gable Spoonfuls of Flour -

Three Quarters of a Pint of water -

to be boiled till it comes to a proper consistence,  
to be stirred, whilst boiling, to prevent its sticking  
to the <sup>in</sup> Sauce-Pan - A glazed Pan for common  
Paste -

In case of fainting it is used to be smelt  
at & applied to the upper Lip & Temples &c.

No 2 - Sal Volatile. This of the same nature

with the preceding only more pure &  
agreeable, & best for internal use. A  
tea Spoonful mixed in a common wine  
glass of water, is very good in case of  
faintness & to be taken not all at once  
but by table Spoonfuls every minute  
till the whole of the glass is taken

and acidity.

3. Salt of Wormwood - About 20 grains to be  
~~taken~~ deposited in a wine glass of pepper-mint  
water is the dose; for a slow fever. -

4. <sup>powder of</sup> Salep ~~off~~ - This is one of the best Purgatives.  
To ten grains add two of figs - This in  
general is sufficient. It is best to give half  
& wait two hours, & give the rest. It may

be mixt with a little honey, & made into Pills  
& given in that way or Conserve of Roses.

This the best opening Medicine for Children.

Or mix it with mint-water. For an Infant

1 lb grain made into Pills with Conserve of  
Roses & Card Confect. 1 dram makes 30 Pills.

5 - Powder of Akabarb. From 10 grains  
to 15 is a dose. Add a little fenziv as to  
the last. It may be given in doses of 3  
grains ~~each~~ every hour till it operates, as  
just directed. If you have no mint water  
ready, weak brandy & water will do.

In case of Costiveness either of the above  
Medicines are very useful. I prefer the  
Salap Powder in general.

No 6 - Speacacantha Powder - For Vomits  
5 or 6 grains is generally sufficient mixed in  
a little plain water. When it has done  
operating, a little weak brandy & water  
settles the Stomach best. 4 grains in two

ounces of water - a tea-spoonful every 3  
minutes 'till it operates.

No 7 — Spirit of Lavender. About 10 or  
20 drops in a lump of Sugar is given  
for a Cholicky pain in the Stomach.

A little ginger tea with a little brandy  
added is better. or a little ginger powder  
by itself, or to which may be added to  
5 grains 2 of Peppercorn. —

8 — Tincture of Sassafras. — A tea-spoonful  
of this mixed with a glass of water is  
used to wash the Mouth & Gums in certain  
cases where there is Swelling. A Sassafras tea-  
-Spoonful in water is given in some  
internal Complaints & is thought by some  
good in Consumptive Cases. To be given  
twice or three times a day

No 9. Tincture of Colombo - a tea-spoonful

in a glass of water an hour before dinner time  
is an excellent Stomachick & Strengthens the  
Stomach, & assists digestion. — good for weak  
Stomachs. —

No 10 - Rhododoe. a little of it rubbed  
in on a part that has been bruised or  
strained; is good also for Rheumatism.

No 11 - Castor Oil. In case of violent Costiveness,  
& difficulty to open the Body. a large  
tea-spoonful given with a little weak brandy  
& water every half hour till it succeeds  
is one of the most valuable of Medicines.

No 12. This Hoffmann's Anodyne Liqueur is to be  
given in half a tea-spoonful mixed with  
water in cases of extreme pain  
till 2 tea-spoonfuls are taken, if necessary.  
In case of pain in the head rub a tea-spoonful  
on the forehead, for which it is excellent.

13 — Distill'd Ether is much the same

in its properties, & the same doses. —

14 — Balsam Truamatae. Five Drops to ten, a dose in Mint Water.

No 15. Antimonial Wine. Five, 15, or 20

Drops in a little warm water to bring on

For the  
Support  
of two  
Months } perspiration in colds & fever is good.  
To the above dose may be added 2 grains  
of Powder of Ipecacuanha.

16 — Elixir of Paregonie. This a very good  
Aidyea in Coughs to relieve them at  
night especially. A tea-Spoonful in  
a glass of Water an hour before going to bed.  
This may be repeated if the Cough is violent.

17 — Goatards extract of Lead. It is good  
for Herts in horses. mixt as much in a  
Pint of Water as makes it of a Milky  
Whiteness. Cracked Shells & other Toys  
it is thought good for. I prefer a

Solution of Opium. It is in great vogue among  
Country Practitioners. Often to very bad effects.  
It has one good Quality, it comes cheap.

18. Pih-Box. Pills of Opium, one grain each.

In cases of violent pain & inflammation one  
Pih should be given to procure ease.

~~In cases of violent pain & inflammation~~  
<sup>In hours. Another may be</sup> given, or another  
half another Pih. But not more than two  
grains should be given in 24 hours. With  
each grain about four grains of Rhubarb  
or Indep should be given at the same time  
to prevent Costiveness.

No 19. Pih-Box. This is Jamesi Powder  
or the same in Pills. In form one may be  
taken every eight hours. They produce  
perspiration & ease. Not more than three in  
24 hours must be given. If one of these is  
given <sup>with</sup> the grain of Opium above it will  
increase its good properties in cases of violent  
pain & inflammation.

No 20 - Cordial Confection. About 2  
grains in a wine-glass of water makes  
a good vehicle to take those Medicines  
mentioned to be given with Mint Water.  
Or to mix up some into Pills, by itself.

21 - Conserve of Roses. To mix up Powders  
into Pills, when it is more agreeable than  
a draught. —

22 Yellow Balaion. A Plaster for Sores,  
spread on lint or soft linen. Not a  
very good thing in general. —

23 - Spermacete Ointment. Spread a little  
on soft linen to be applied when a blister  
is removed.

24 - Magnesia. Good for the Heart-burn  
& other Complaints of the Stomach, arising  
from Acidity. Half a tea-Spoonful to a  
full one may be given. Add one or two  
grains of Rhubarb & also of Ginger  
in general.

25 Tincture of Rhubarb. A Tea-spoonful  
of this in water is given in gripings of the Bowels.  
A wine glass of water or not quite so much.

26 - Haakani's Tincture of Bark. A tea-spoonful  
in water as above a good restorative after fever;  
once, twice, or thrice a day.

27 - Rochelle-Salts.

## For the Ague

Three quarters of an ounce of the best Red Bark, a Table Spoonful of Coarse Brown Sugar, 20 Black Pepper, a whole Nutmeg grated or the same quantity of Ginger, 20 Drops of Syrup of Poppies, 10 Drops of Hartshorn, to be mix'd in Brandy to the stiffness of an Electuary. To be taken every two hours between the fits - If the Fever runs high only three times a day. The dose to be repeated on the ninth after missing the fit. An Emetic should be taken first. Blank Dose to be of the size of a Nutmeg. —

## Ipecacuanha Wine

A Table Spoonful - viz half an ounce, is a proper dose for a Child. —

An ounce of it for a man —

Mr Homer

For the Ague

Take  $\frac{3}{4}$  oz of Bark the juice of 2 or 3 Lemons  
 $\frac{1}{2}$  oz of Venice Treacle, mix all well together, & add to  
it a pint of Mountain or strong Raisin wine, then let  
it be well shaken & incorporated together with ~~other~~  
Ingredients:

Divide this mixture into five parts - As soon  
as the fit is entirely off give one part, if the Ague  
comes every day, & give another part 6 hours after  
the former, but if it be every other day or a third  
day ague, <sup>give</sup> the second part 12 hours after the former  
& a third part 6 or 12 hours after the second - which  
if carefully observed seldom fails to take off the fit  
Give the fourth part of the Medicine 4 days after  
taking the third — and give the 5<sup>th</sup> part 4 days  
after taking the 4<sup>th</sup>, by way of preventing the return  
of the Fit.

C. D. H.  
J. K. H. Oct 17

For a Cough

Lactis Amygd.  $\mathfrak{z}$  viii) ----- Milk of Almonds )  
Sal Nitri ----- half a dram 8 Ounces ----- )

Sperma Cete  $\mathfrak{z}$ ij ----- 2 drams rubbed with )  
half of 7 yolks of one Eggs )

half an ounce, of White Poppus - half  
an ounce. ----- }

Cort us - bis terve in Die - Two Table Spoonfuls  
Three Table Spoonfuls <sup>two or</sup> thrice a day. - For  
a Child or less, if it should disagree with the  
Stomach, or occasion drowsiness.

Wilmer.

---

A Lotion for a thumb or finger  
25 grains of blue Vitriol -  
& one ounce & an half of water.

- Wilkes.

To make Raisin wine

To every Gallon of Water put 8 lb of Anyona, or Malaga Raisins, picked only from the large stalks, put them in a Tub, let them steep 3 weeks or if the weather is very cold 2 months / Stir them twice every day, then draw off the Liquor, and press out all the juice with weights, then put it into the Cask and let it stand till it has done hissing or making the least noise, then stop it up close.

After you have drawn off your Wine, the raisins will make you a third part in Veragas. A. C. -  
(L. S. P.)

Wt. 400 Weight of raisins will make a hoghead of Wine.  
rather

2 Cwt. Malaga Raisins

1 do Sun Raisins

The Peels of Six Lemons

Button Charing Crop

To make Raisin wine

Take a hundred (112<sup>lb</sup>) or 3 qrs (196) of  
Smyrna, or Malaga Raisins, divide the lumps, but  
do not take out the Stalks, put them into a  
Mash-Tub, & put to them 26 Gallons (French Measure)  
of River-water, let it stand 3 Weeks, stirring it  
very well every day, till within 4 days of drawing  
it off; then when drawn off, immediately put  
the liquor into the half-hogshead it is to remain  
in; Bung & stop it close; then lay upon the fruit  
12 more Gallons of Water; - stir it as before  
for 6 days; then let it stand three or 4 days  
& draw it off without pressing of fruit; but tilt  
the Tub as high as it will stand; and with this  
second running fill up the half-hogshead within  
two Inches of the Bung hole; put the bung & Vent  
Peg lightly in, after casing them, till the Wine has  
done keping, but watch it often, least it should  
work again. — Let it stand 5 or 6 months,

then draw it off without joggling the Vessel, into  
clean tubs; & pour out the Lees & rinse the Vessel  
with a little of the Small Wine that was left of  
<sup>pour into the Vessel 3 pints of the best brandy. Soak it about 5 then fill it up</sup>  
<sup>within 2 weeks, with the Small Wine that was left of the 2d running</sup>  
The 2<sup>d</sup> running, on purpose to fill it up; which  
Small Wine must be first put in a Cask that just  
holds it. In ten Months peg that half hogheads  
& if it is not bright, draw off a little at a time;  
It must not be bottled either in hot or frosty  
Weather; If it has a good body, do not draw  
off more than to taste it; & the longer it is  
kept in the Vessel the better.

The day before you make the wine, put 7 or 8  
Gallons of Water into a Copper, boil it &  
throw in 3 Bunches (or a little less) of good Hops;  
Boil them 20 Minutes then strain it, & on the  
next day measure the Water thus boiled with the  
Hops & reduce it as part of the 26 Gallons first  
laid on the fruit. —

A gallon of Brandy to a hoghead of Cyder  
recommended by a Leominster Man as a success-  
ful Preservative

To make Ink (just to remain but  
not to boil)

1 pound of Blue or Aleppo galls

$\frac{1}{2}$  a pound of green Vitriol, called Copperas.

$\frac{1}{2}$  of a pound of Gum Arabic

Two Ounces of Rock Alum

To be beat small, but not too fine, to which put  
one gallon of Rain Water or 3 Quarts of Rain  
Water and 1 Quart of Vinegar. - (about 4s)

Or

Aleppo galls - 9 Ounces

Green Vitriol - 6 Do

Logwood - 3 Do

Gum Arabic 1 ounce & a half.

Common Salts - 3 drams.

Purified Spirits of Wine 1 ounce & a half

Fontain or Pump Water 6 Parts -

(B) When there is not much fever in the goat,  
and the Patient is debilitated with Age, or the  
Continuance of the disease, a moderate Opiate,  
as twenty drops of tincture of Opium, or one  
grain of Solid Opium, may be taken every  
Night with Advantage. Externally a paste  
made with double the quantity of Gist is a  
good Poultice; and bootstraps made with oiled  
Silk, as they confine the perspirable Matter,  
keep the part moist and Supple, and thence  
relieve the pain like poultices."

The only safe way of moderating the disease  
is by an uniform and equal diminution, or a total  
Abstinence from fermented liquors, with the cautions  
described in Sect. XII. 7. 8.

The debility, or torpor <sup>of the liver</sup>, which is the Cause of goat,  
is thus prevented by the greater irritability of the  
System, acquired during the lessened Use of  
fermented liquors. Darwin -

Murmur aurium vertiginosum. The Vertiginous  
murmur in the Ears, or noise in the head, is compared  
to the undulations of the sound of bells, or to the  
humming of bees. It is owing to our hearing less  
perfectly from the gradual irritability of the Organ  
on the Approach of Age; and the disagreeable  
Sensation of noise attending it is owing to the less  
Energetic Action of these irritative Motions, which not  
being sufficiently distinct to excite their usual  
Associations become succeeded by our Attention, like  
the indistinct view of the apparent motions of Objects  
mentioned in Vertigo visualis. This may be better  
understood from considering the Use, which blind  
Men make of these irritative Sounds, which they have  
taught themselves to attend to, but which escape the notice  
of others. The late blind Justice Field<sup>r</sup> walked for the first  
time into my room, whence he once ~~visited~~ visited me, and after  
speaking a few words said, "This room is about 22 feet

Long, 18 wide, and 12 high;" all which he guessed by  
the ear with great accuracy. Now if these irritative  
sounds from the partial loss of hearing do not  
correspond with the size or usual echoes of the place,  
where we are; their concatenation with other irritative  
ideas, as those of vision, becomes disordered or disturbed,  
and we attend to them in consequence, which I think  
unravels this intricate circumstance of noises being  
always heard in the head, when the sense of hearing  
begins to be impaired, from whatever cause it occurs.

Stimulate the internal ear by Ether, or with essential  
Oil diluted with expressed Oil, or with a Solution of  
Opium in Wine, or in Water. Or with Salt & Water.

Apply a Cupping glass over the Ear. See t. 2.

s. 6. Galvanic Shocks through the Temples.

See IV. 2. 1. 11. Darwin 4 vol. 264.

### Salve for a burn

Take a lb of bees wax scraped fine, put it into an Earthen Pipkin with a quart of heats foot Oil; Set it over the fire till it is entirely dissolved; then add Six Ounces of Lapis Caliminaris: this last Ingredient must be added very gradually, or it will sink to the bottom; you must keep stirring the Salve from the instant you begin to shake in the powder till it is quite cold. L. M. F. —

### A Saline Draught

The juice of one Lemon — Two or three tea spoon-  
fuls <sup>of</sup> Capillaire, or two lumps of sugar — Half a  
Sea spoonful of salt of Wormwood — mix them  
well, and pour the water on it, & drink it in a  
state of fermentation; If you want much  
perspiration, add 10 or 15 Drops of Antimonial  
Wine. Take two or three in a day. If it does  
not ferment properly, add a little more Lemon juice.

To make Chamomile tea - put some  
Chamomile flowers into a small tea pot -  
pour on the cold water - infuse it overnight

Salt of Wormwood - 20 grains

Lemon Juice - 2 Table Spoonfuls -

Spring Water - two Table Spoonfuls

2 pieces of Sugar - of the size of a

nut kernel - or of half a nutmeg -

add 2 tea Spoonfuls of Nutmeg Water, or Brandy

(NB add a table Spoonful of Mint Water,

or Cinnamon Water, as occasion may require,

if any gripes or pain in the bowels.) 144

NB. Where Acids prevail in the Stomach -

take five grains of Salt of Wormwood in

two table Spoonfuls of  
Strong cold Chamomile tea - fasting in the

Morning, & one hour before dinner, if the

disorder is very obstinate - This plan may

be persevered in for 4 or 5 days -

At NB. Dissolve the Salt of Wormwood in 2 Water

by itself - then put in the lemon juice at the

time of taking the Draft. - Drink it in that state

of Effervescence - Hæschel.

A receipt from Westmoreland to cure a Ham.  
When the Ham is cut out rub it very well  
with one ounce of salt Peter half an ounce of  
Salt Prunella pounded and one pound  
of common salt lay it on an earthen pan  
for ten days turn it once in that time  
rub it well with common salt at discretion  
let it lie ten days longer turning it  
every day then take it out and scrape it  
very clean and dry it with a clean  
Cloth rub it over slightly with a little  
more salt and hang them up to dry  
for four or five Months.

Warts

To prevent ~~Warts~~ Paste brown paper close  
round the Ham particularly about the  
handle & rub on Pepper where there are any  
Whebles. Mr. Hill

## Sauce for Roast Beef

Take some gravy <sup>with the</sup> fat and some scraped  
Radish -  
Horse ~~Radish~~ a spoonful of port wine, a  
spoonful of vinegar an onion very thinly  
sliced, a little pepper, salt and Soy just  
warm it up in a Sauce-pan, and you will  
find it excellent.

To ~~prevent~~ kill moths in a Clothes - Press  
of White Pepper - half an ounce -

Of Musk - a quarter of an ounce -

- One 5<sup>th</sup> - or 6<sup>th</sup> - or 10<sup>th</sup> - part of this put into a  
bit of Muslin -

To clean the tops of Boots -

Wash them with Soap & Water - wipe off the Soap,

& wash them with Milk -

For a Hoarse Cough?

Honey & Oil - of each two Tea spoonfuls

of Lemon Juice - One tea Spoonful -

To preserve & improve Cheese -  
Get a little Stone Lomie and pour boiling water  
upon it, let it be as thick as good Cream,  
and then with a brush lay it upon the Cheese.

This method will prevent Snails and Mites from  
eating it. = The Cheese which you intend to  
begin upon I would recommend you to tie up in  
a Cloth and put it into the ground for two days,  
then take it out and lime it, and you will  
surpass all your Neighbours. - In Informations  
Jacob. Birch, Wiskford, Dec. 1. 1804 -

! Weevils

To prevent ~~the~~ in Hams

Soak up the hams in a coarse Carrap Cloth,  
& stuff the inside with the husks i.e. the Chaff  
of Oats, or wheat, (but Oats is the best) - to  
keep off the little Small flies, that deposit their  
Eggs, which turn into Worms. - Keep the  
Hams in a Cool Place - not in the Kitchen but  
in the Garret. - Barto Valle 2021. <sup>May -</sup>  
<sub>- March</sub>

Take of Quassia shavings one scruple  
Boiling water half a pint, let them infuse  
together for one hour, & then strain the liquor

Take of the strained Infusion, 15 Drains or  
four Table Spoonful, Vitriolated Magnesia  
one Dram (by weight), simple Tincture of  
Cardamoms, one Dram & a half or one Tea  
Spoonful & a half, to be mix'd together  
for a Draught to be taken every day at  
noon, & in the evening for a week

Dr Denman Feb 1<sup>st</sup> 1805

One Dram of Powder of Rhubarb mixt with water and divided  
into eight or ten Pills. — which is four grains in each Pill.<sup>200</sup>  
One pill to be taken every day — & 4 grains make 15 Pills

For a Milk sore in the Breast

Linseed Powde made into a Poultice  
with Tea made of the leaves of Elder  
applied warm & changed every 12 hours

To cure Scalding with hot Liquor.

Spirit of Turpentine rubbed on with a Rag  
or  
John Day

Linseed oyle — or Lyased Oil  
& Lime Water mixed — Thomas Day.

One Ounce of Magnesia

Half an Ounce of Sal Polychrist.

A Quarter of an Ounce of Rhubarb powder —  
mix & divide into twelve doses.

More Rhubarb or Sal P. may be added  
J.P.

For cleaning the Tops of Boots

One Tea Spoonful of Gum Arabic,  
boild in a pint of Milk. Two Drach<sup>s</sup>? of  
Vitriolic Acid. Two Drach<sup>s</sup>? of Muriatic  
Acid. - + This was formerly called Spiritus Salis Martini  
Glaberini.

1 A/ For blacking  
Ivory black - 4 ounces

Oz of Cloves (sweet Oz) half an ounce -  
Treacle, or Common Sugar, two Table Spoonfuls.  
White Wine Vinegar - 4 ounces -

Oz of Vitriol or Salphuric Acid 40 drops.  
Add to the latter half a pint of Water,  
1 Ounce dram of Gum Arabic. -

Ditto

Half a lb of Ivory black, half a lb of Treacle  
mix the above well into a Salve till it be free  
from Lumps, then rub two table Spoonfuls of

For a Cold & Hoarseness

Boil some Vinegar and Honey to a thick  
Consistency - a Spoonful - when cold, take a  
teaspoonful occasionally - T. D.

---

(Dr. Astruc's) Beaume de Vie - to be had at Bacon's  
in Oxford Road.  
A Desert - Spoonful of it to be mixed with a  
Table Spoonful of Water to be taken an hour  
or two before dinner daily. - a Table-Spoonful  
may be taken after two or three days. - J. -

---

Sweet Oil & mix them well together, then add  
half an ounce of Oil of Vitriol, the juice of  
two Lemons & three pints of the best double  
distilled Vinegar. R. V.

Keep the blacking in an earthen Pot cover'd  
over. Stir it up from the bottom every time it  
is used & use but very little at a time & the  
Boot or Shoe to be polished immediately the  
blacking is put on. The Dirt must be taken  
off the leather very clean -

An Ointment for the Rickets

Take of fresh made unsalted Butter 1 lb  
Chamonile, Smalage & Ground Ivy of each a  
large Handfull cut very small. Boil them  
in the Butter till it is very green then press it  
from the Herbs, & if it is not sufficiently green  
boil it again with fresh Herbs

Anoint the Child Night & Morning by the fire  
for a month, on the points of the Ribs next the  
Breast, but be carefull not to touch the Breast  
& Stomach. It must not drink Beer or be thrested  
till the month is out.

For the Ague

25 Drops of Laudanum

35 Drops of Sp<sup>t</sup> of Hawkshorn

To be given in the cold fit when going to bed  
in simple Mint Water.

## For Fattening a Calf

Mrs & Caze

Let as much water be heated on the fire as the calf would be disposed to drink and when it boils, throw in one or two handfulls of Oatmeal and after continuing in that state for <sup>one</sup> five minutes, take it off and let it be cooled to the temperature of new Milk when one or two pints of Skimmed Milk may be added to it. M. W. & C. generally begins with half a pint of Oatmeal (which serves for two meals) and ends with a Quart and gives it twice a day. -----

### Sauce for Roast Meat

A Tea-Spoonfull of Mustard

A Tea-Spoonfull of Sugar -- to be mixed with a little Vinegar & grated Horse Radish --

### To make Cherry-Brandy --

Pick the stalks off the cherries (but not quite close to prevent the cherries being broke) fill the bottle with cherries quite sound to the ~~mouth~~ neck: -- put nearly  $\frac{1}{4}$  of a pound of Sugar Candy into a Quart bottle (with a wide mouth) then fill the bottle with brandy, shake it very two or three days & it

Composition for removing Grease Spots from Paper  
Rock alum burnt, & flour of brimstone,  
(of each an equal quantity) being finely  
powdered, wet the paper a little, & put  
a small quantity of the powder upon the  
place rubbing it gently with your finger,  
& the spots will disappear.

Monthly Magazine

For a lameness by contraction — Egg liquor to be  
gently rubbed on the contracted Parts two or three times  
a day; — to be thus made.

Take the Yolk of a new laid Egg, let it be beaten  
with a Spoon to the greatest thinness, then by a Spoonful  
at a time add three ounces of pure Water, agitating  
the mixture that the Egg & Water may be well incorporated,  
and let it be applied by gentle friction. The *Gentleman's*  
*Magazine*, July 1809 P. 626. —

A) keeps filling the bottle with Brandy, for a few days. —  
Cork it up close — It is better when kept a year —  
but may be fit to drink in 2 or 3 months. —

For Chopt Hands

One pound of best Soft Soap, One Ounce of Spermaceti, two Drams of Camphire, a Common tea-Cup of Sweet Oil, put into a clean Stone Jar, and set into a Pot of boiling Water, boil an hour, and then beat it till it is cold. —

Tincture of Rhubarb

One Ounce of Rhubarb cut in small Shies, one Drachm of Saffron, One Ounce of Cardamoms, Seeds & husks to be bruised together, put into a pint of Brandy; let the Ingredients remain in the Brandy. —

For the Rheumatism

One tea Spoonfull of Volatile Tincture of Turpentine in a Glass of White Wine at Night & in the Morning. — B. W. —

For a Cough

Three desert spoonfull of Treacle or Brown Sugar, three  $\mathcal{L}$  of Vinegar & thirty drops of Laudanum; a desert spoonfull to be taken at bed time, & a little whenever the cough is troublesome. —

or 2 table spoonful

or a tea spoonful

Recipe to keep the feet dry & warm  
Warm the soles of your Shoes, & rub them well  
on the outside with warm tar, - Let the Shoes  
lie at a moderate distance from the fire until  
the tar has soaked in. Repeat the operation again  
& again, until the leather will imbibe no more.  
Then, with a greasy rag or otherwise, rub off the  
superfluous tar, or stick paper on it for your  
first walk out. After an half hour's walk,  
the shoes will not soil the nicest carpet.

Thus prepared, the leather is impuncturable to wet;  
& the additional warmth, gained by this process,  
would hardly be conceived, except by those who have  
experienced it. The Leather is also rendered more  
durable by this operation, & its durability may  
be further increased, if, on giving it the last  
coat of tar, you powder it over with iron filings,  
which (the Patentee says) will closely adhere

to the leather, and become as it were incorpo-  
-rated with it. As to Smell, it ceases soon  
after half an hour's Walk.

N. B. In addition to the first preparation  
of the Soles, it may be well to give them an  
occasional coat of Tar during the course of  
their Wear.

Gentleman's Magazine Dec. 1709—

### Filberts

Grab up the Filbert suckers, when  
planted, cut them off six Inches above  
the ground— The next year save three  
Prongs in the first cutting for a Head,  
the year after let them spread, and  
keep them hollow within side like  
a hoop.— Let them continue spreading  
the next year, and so continue.

Year  
sprawling for a tree. Cut every <sup>year</sup> tree  
from November to March and  
cut out the scions to form a  
handsome tree. — Every year clear  
the suckers round the stem. —

And also put in a Bushel Basket  
of Manure (Should and Dung together)  
Peirce's Gardening  
advised. —

For Water froel.

Take half a Peck of whole froits, & boil them in a Quart  
of Water till it comes to a Jelly. Then Add about  $\frac{3}{4}$   
of a Peck of Cold Milk, stirring it gradually up. Then Add  
Sugar, Nutmeg, Salt, or Butter to your taste. Straining the  
froits may be an Improvement, & the residue will make good  
Milk Porridge. For P. S. —

For Indigestion

One ounce of Akubarb cut small, one dram of Saffron,  
a quarter of an ounce of Cardamoms — put into a pint of  
Brandy & brused seeds shake together. Let the Ingredients  
remain in the Brandy. For Legend.

Cement for Glass or China

Equal Quantities of Venice Turpentine, Gum Arabic  
& Plaster of Paris - NB. The Plaster of Paris  
to be added only when wanted to be used. -  
see 1<sup>st</sup>, Natural Philosopher.

For Chopped Hands or Face

Oil of Sweet Almonds & yellow Bees wax well  
beat into a Pomatum.

Matt Tea for a Cough

A Quart of boiling water poured over three Spoonfuls  
or more of brown Matt; of which half a Pint is to  
be taken every Morning fasting.

For the Stagers

1 OZ of Camphor, & 2 Ounces of Spirit of Wine.

To cause Sleep, when Leadum does not agree,  
& Persons cannot sleep without it. -

Take of Lead or Freacle (or Phloxum) One Scruple -

Pepper mint water 1 OZ & 1/2 - Single Tincture of

Valerian 40 drops - Symp of Balsam 2 drams - Mix

them into a Draught, which must be taken on going to bed

To make a Cold Charge for a Strain

A Pint of Urin - 1/2 a pound of Bole Armeniac made  
into a Mass - & the Whites of three Eggs - with honey of Mars, & a  
little Fat.  
An Alterative. Sulphur, Nitre & Antimony & a pound each made into a Mass,

For the Rheumatism

20 grains of Magnesia

4 grains of James's Powder -

To be taken every night - going to Bed - for a considerable time & to be repeated occasionally.

For the Piles

Oil of Almonds 2 drams

Mucilage of Gum Arabic  $\frac{1}{2}$  a dram

Akhbarb 5 grains.

Rose-water 6 drams.

Mix & make a Ointment to be taken twice a day.

To destroy Bugs

Take Corrosive Mercury finely powdered &

Cologintida in fine powder - each 1 OZ - a pint

of Spirits of wine

Shake them well in a Bottle, & wash y<sup>e</sup> place

where they harbour well with a brush. NB The Bed

should not be laid in till a day or two after it is done.

For a Horse troubled with a Cough

$\frac{1}{2}$  a pound of Sulphur -  $\frac{1}{2}$  a pound of Salt-Petre,

$\frac{1}{2}$  a pound of Honey - with a large Spoonful of Nutmeg  
made up into 12 Balls with a little flower. -

A Method of marking Sheep by the Rev<sup>d</sup>  
C. Pine Coffin of East Dorset, Devonshire  
mark on each side of the nose of the Sheep  
the initial of the Owner's name, and on the  
opposite side any number chosen to designate  
the particular Sheep with a small iron letter  
or figure about one inch long, dipped in common  
Oil Colours, mixed with turpentine to dry them  
more readily. This will continue till the next  
Season. It is attended with very little trouble  
or expence &c. —

For Calves when fattening. —

1 Table Spoonfull of Finiquet powder  
1 ℥ of powdered Chalk

2 D. of Wheat Flour - made into a  
paste with Gin or Milk - Two Balls to be  
given Night & Morn<sup>g</sup>. - Half a Spoonfull of  
Laudanum - or a Table Spoonfull of  
Purgative Elixir may be added to the  
above -

### Romanscilles Tincture for the Teeth

Put  $\frac{1}{4}$  of an oz of Tincture of Myrrh into a Gill of Port Wine, & let it stand till it becomes quite clear - then add half a Gill of Brandy. It must be lowered with water to the strength proper for use.

R. B. If there is any scurvy in the Gums add a little Vinegar. The above quantity will require as much Water as will make a full pint.

### Tooth Powder

Equal Quantities of Armenian Bole Red Coral, Myrrh, & Dragons Blood finely powdered & mixed together

To cure Warts.

L. G.

Wash the Hands twice a day in the Water used by Blacksmiths to plunge their hot Iron in. — regularity in the use should be observed, and in six Weeks or two Months the Warts will disappear. —

D<sup>r</sup>. Day -

For the Head Ache

Take Cascadilla bark bruised 3 Drachms  
Boiling Water one pint. macerate for two hours in a close Vessel - Then cold Strain the Liqueur for use. —

Take of the above infusion 1 O<sup>z</sup> 1/2  
Compound Tincture of Aloes 1 Drachm  
Prepared Soda ten grains. —

Mix for a Draught. Take one twice a Day.

Nervous Drops -

Dr. Day

Take of Volatile Tincture of Valerian 1 oz & 1/2  
of Sal Volatile 1/2 an oz -  
Mix them together & take a tea Spoonful  
twice a Day in some Water.

Pills -

Dr. Day -

Take of Sulphate of Iron. 10 grains. -

Myrh &

Subcarbonate of Potash of each ʒi.

Let them be made into a mass, and  
divided into twenty four equal pills.

Four to be taken twice a day. -

Pills -

W. C. C.

Gum ammoniac, Soap, Camphor,  
Pile Buxa, and Hemlock, of each half  
a Drachm, and 3 grains of Calomel  
made into 32 Pills. - One to be taken at night

W. Lloyd.

For a Cough

Two table Spoonful of Honey

Four Do of Water

Two Do of Lemon juice

Two Do of Paregoric

Mix them well together, & take a tea-  
Spoonful often. -

Pepper Gargle for putrid Sore Throat  
 $\frac{1}{2}$  pint of Vinegar - a table Spoonful of  
Cayenne pepper - a tea Spoonful of Fine  
Salt - &  $\frac{1}{2}$  pint of boiling Water. - The  
water to be poured on the Cayenne & the other  
ingredients added afterwards. -

An Infallible cure for Inflammatory Rheuma<sup>tism</sup>.

4 Grains of James's powder - & 20 Grains  
of Magnesia to be taken every night &  
no Confinements necessary -

Avoid wet feet -

The famous American receipt  
for the Rheumatism

Two cloves of garlic, one Dram of Gum ammoniac  
blend them by bruising them together, make them  
into two or three boluses with fair water,  
take one at night & one in the morning. Drink  
while taking this receipt sassafras tea made  
very strong so as to have the <sup>tea</sup> pot filled with  
chips. This is generally found to banish the  
Rheumatism & even contractions of the joints  
in a short time.

Cement for Glass or China

Equal quantities of Venice Turpentine Gum  
Arabic & Plaister of Paris. The Plaister of  
Paris to be added only when wanted to be used

Infallible cure for the  
Whooping Cough

Dissolve twenty grains of salt of Tartar  
in a Gill of Water - & ten grains of Cloveins  
finely powdered, & sweeten it with fine sugar  
Give to an Infant a tea spoonful four  
times a day & to a child of four years old  
& upwards a Table spoonful four times.

To clean Plate -

2 oz of Calcined Hartshorn & 1 Lt. of Water  
The Hartshorn to be finely powdered & sifted  
thro' Muslin - Boil in it a y<sup>d</sup>. of coarse  
Calico till it has absorbed the whole of the  
Water - The plate is to be well rubbed with  
the Calico after being washed. -

To make Boots & Shoes Water proof

1/2 lb of Tallow -  
4 oz of Hog's Lard  
2 oz of Venice Turpentine  
2 oz of New Bee's Wax  
2 oz of Olive Oil -

Melt the whole in a Pippin -

The Boots before the Application must  
have no dampness - Heat them well  
at a char fire - & apply as much of  
the melted Composition as the  
Leather will imbibe. - put it on with  
a glazier's Brush -

For a Slight Feverish Complaint  
5 Grains of Salt of Hartshorn  
1 Tea Spoonfull of Lavender Drops  
2 Table Spoons full of Water -  
To be taken twice or thrice in the Day

To cure the Canker in Apple trees.

The canker in the stems and branches of Apple trees may be cured by lifting trees in October and November, and planting them, again above the land's level, upon little Hills of common road sand. No other application is wanted for the cankered Holes in the stem, but to rub the road sand into the wounds, after cutting out the bark. - Branches must be cut away to sound wood: and if you reduce the tree to a

sure post, a new Head will quickly  
shoot forth. —

### Fire & Water proof Cement

Take half a pint of milk, put an equal  
quantity of vinegar in order to curdle  
it; then separate the curd from the whey  
& mix the whey with the whites of four or  
five eggs, beating the whole together.

When it is well mixed, add a little quick  
lime, thro' a sieve until it has acquired  
the consistency of thick paste. With  
this cement broken vessels & cracks of all  
kinds may be mended. It dries quickly  
& resists the action of fire & water.

For Chelblains Mr. Toke.

1 lb of Hoglard, 2 Ozs of Bees Wax <sup>1/4 lb of</sup>  
Yellow Resin, the other sort will not do,  
3 halfpenny worth of linseed Oil. 2 Ozs of  
Deer Suet. These ingredients simmered  
altogether for ten Minutes or a quarter  
of an Hour till it is all properly dissolved  
and well mixed, then pour it into  
Pots and tie it down for use.

It must be done in an earthen Pipe:  
kin or bell Metal Skillet, it must not  
be done in any thing of Pewter, or Iron,  
Copper or Tin.

A Prescription it is supposed strengthening  
Gentian an Oz & 1/2 Sliced thin  
Orange Peel <sup>4</sup>/<sub>3</sub> of an ounce  
Cardamom seeds bruised 3 Drachms  
Long Pepper & Ginger of each 3 Drms  
Brandy a Quart

Saline Draught

20 grs Carbonate of Kali -  
15 grs Concrete Acid - 2 table Spoonful  
of water to the Kali & one to the Acid -  
a little sugar must be added -

To prevent drawings rubbing - to be  
attached to the back of them -

403 - highly rectified Sp. wine -  $\frac{1}{2}$  drachm  
of camphorated do 103 - Volatile oil of

Cherry - 103 - of the whitest & soon  
powdered - & put into the mixture -

See owner of Oil of almonds cold drawn  
& owner of Symp of roses, one ounce of  
the best Sassafras water, mix together &  
take a table spoonful every night before  
a confinement for 2 weeks.

Equal quantities of Brandy, Virgin &  
Water, reserved for a fall or winter  
to be used either externally or internally.

Of Substances for Salt of Lemons  
Take equal quantities of Salt  
of Sord & Cream of Tartar, mix  
them well together.

### A Plumt Pickling

Stout vinegar, but 1/2 pint of each  
3/4 lb. a little Shergul of Sugar, some  
Lemon Juice that may find, & one glass  
of brandy. So be drunk very soft with  
milk & bread 4 times.

If Water be added Lemon Juice  
will not be necessary.

### Stomach Pickling

1 lb. of sweet - Chopped fine. 1 lb. Lemon  
4 table spoons full of Flour. 4 eggs well  
beaten - 1/4 lb. Distill'd vinegar - a little  
Citron & a few better sliced & soaked  
in brandy - Boil it 5 hours -

with a vessel upon one way, taking care  
to prevent its burning to the bottom of  
the vessel. It is in or under flowers in  
boiling, when done it should be of the  
consistence of thick cream, therefore it  
will make Pots, & when cold Paper it.  
It should be more boiled for keeping

### To destroy Pots.

1/2 lb of New Jamaica to be boiled  
in a pint & half of Water, & then to  
be taken out & sliced, & returned  
with the same liquor, to be boiled  
away to about a cupfull, when  
it is mixed with Sugar, & placed  
for one Night. The New Jamaica to  
be pushed out & thrown away the  
best is then ready for use.

To stop Bleeding

Take powder of Pale Armoniac

mix it with Butter, & tie it on the

around. Or Take them down but

Mr. Ringer, scrape chalk on it and

lay it on the wound.

Clear Rob.

Gather the clear Beeswax when the

is cold & (very) strip them and put them

into an earthen vessel, & put that

into a pot of Water over the fire, & let

it boil 4 Hours, then take the Beeswax

& break them with your hands & make it

put them into a Hair sieve to strain them

take the liquor & let it boil slowly over

a Charcoal fire, continually stirring it

To prevent your hair falling off.

Put five pounds of ~~unsalted~~ <sup>salt</sup> into a still, with twelve pounds

of the tincture of Urine, and the

same quantity of Government Wine. Boil

so soft and so slowly as possible

The Digestion may be allowed to last

two or three weeks.

For the Stone & Gravel.

Take Black Berries before they are ripe, <sup>there</sup>

but when turned red, tie them up in

a bag, & set them over a fire till they

are reduced to a pulp, then strain them

and to a pint of Juice put a lb of Sugar

and put it to a jelly, & put it up

for use. If going to Bed, take the

quantity of a large Pinting. —

Don't Demerille's Recipe for the Soft-Hot in Sheep  
It consists of butter of Antimony rubbed into the  
Foot, after it is carefully pared out, so as to leave  
no cavity in the horn. It is easiest applied with a  
small stick cut flat. The sheep must then be set in a  
dry place for three or four hours, & separated for the  
Week for a few days afterwards. When this disease is  
taken in time, & horns don't grow thick, & between the hoofs, where  
they separate, then one application will be sufficient; but  
it is a strong remedy, & must be applied with direction.  
Horns are more subject to the Soft-Hot than Scurf or  
Wetness, & more difficult to be cured. In passing out the  
Foot, care must be taken not to cut off the the-  
over,  
at the extremity of the hoof, because the blood is that way  
would not circulate to the extremity of the foot, and so  
it will be weakened altogether; but the deer horn stands  
All be cut out.

a Attempt to cure the bloody humor,  
particularly on any grip in a dry summer, in black cuts,  
Sake of Callandine, the rogius, and platanus, a  
large handful of each, one oz. of bile, Ammoniac, the  
part of salt, three the parts small, and put them  
in a pot with a quart of strong beer; let them stand  
for half an hour, till the juice is reduced to a quart,  
what there off, and let cork, put this into the ear  
with a drinking horn or bottle, and tie it up for  
four hours from water; after which let him to water  
she has not been accustomed to, and let her drink as  
much as she will take. — The Jordan Urine Remedy  
Lame for the yellow in sheep — when young  
or old Urine —  
Or the first discovery to take a little blood  
for very sore, and remove them to another part  
at a distance. This has proved any further loss  
for six years past, although no change was made in  
their feed. Whether it was owing to the bleeding, or  
the change of air, or the journey, is uncertain. 370

should be taken out, and put into a pan of boiling

water to kill them: for, if thrown out any where, they

will revive, and get into the house again. —

The Gatten's Magazine, March 1810. —

For a store — cough —

twenty times their weight of Water. <sup>by 21.1810</sup> John Amodeo  
= For the Distemper in Dogs

For the garden in Hones

Such short & short of bar, when it is little above  
blond hat, then put a sixth Spoonful of powder  
stronger into it, and also a small bar - glass full of  
leadstone will before you put it down, which will  
give some in a short time; but if the complexion be  
exceedingly evanescent, give about half the quantity  
again in fifteen or so minutes. As soon as you find the  
face abated, give the home a good dose of purgative;  
the best kind of powder is either oil. With one of the  
oil is better. The purgative must be in heavy to  
on this but in case of vomiting, when new and be  
given, in the leadstone, which is of a strong binding  
nature, will counter the use. Purgatives are frequently  
given by themselves, which will often remove the purgative  
the hot violent; but if they are so, it will often prove  
fatal before it purges, that is, carry to the great stage  
thoracical portion of the infection. Hence that has had  
the lymph ought not to have given food again for a but  
or two days. This food should be good long with some milk.

To clean Franchony Tables  
So one pint of cold drawn Linseed Oil, add

a small quantity of Rose Brack & Alkanet

Proof. Let this mixture stand 24 hours before

you use it, then put it on your Tables with a

soft rag, let it lay on an hour or two after

which rub it clean off with a dry cloth.

Repeat this method till the Tables have

acquired a high polish. Be careful to rub

all the oil off before any fresh is put on.

do. Then put all in a pot & tie it very close with a white  
paper & leather over it, & put the pot into aettle of cold  
water & let it boil 8 hours, then strain thro' a fine

It is a Boon of cold water & cream it well. Do it over  
as often as is necessary but only if between each time

### Method of curing the Foot rot in Sheep

So effect this cure it is directed to have the hoofs of the  
Sheep affected with the disease, is such a manner as to leave  
in hollow to hold the dirt, and if matter be formed, care  
shall be taken to let it out, and the feet washed clean  
from dirt with stale Urine, & mixed with a strong, thin  
the Sheep are to be put into a hare or to shed, the floor  
of which has been previously spread about two inches thick  
with quick-lime reduced to powder by a small quantity  
of water. The Sheep should stand upon it for six or  
seven hours, when the lime will be effused, & proceed the lime  
be drawn from the skin. — The effect of this remedy is  
supported by two Certificates, and the Secretary recommends  
with a medal of the Society of Arts. The case with which  
the Experiment may be tried will recommend the Application  
to the ~~Public~~ Shepherd, whose flock may be affected  
with this distressing malady. — Printed 3<sup>rd</sup> June 1759

To Clean Brasses

Clean it by throwing the leather with the old powder  
& breaking on the horn & rubbing the brass directly

while it remains damp. To be done every time it is

used. Or at least with a calico or linen Rag or

leather, but not flannel. Old cloth is better than

new. Use a brush & rubbing for the lock or any

part of the horn that is rusty.

To dye yellow

Take half an oz of Spanish Crocus & 3 oz of

Quercitones, put them into 8 or 10 gals of water.

Boil them an hour, put in your Linen & boil it a

6 or 7 an hour, then boil it an hour in clear water

& afterwards rinse it.

To dye Ship Ornaments Black

Booth your Ornaments inside & out with common Ink

thoroughly drain it but dont put it by the fire

Then brush it over with Japan Ink, but first put

or half a Part of Quin -

So stop scouring in cattle

Take half a pint of old brimstone, and mix in it an ounce of blue-arsenic reduced to powder; or, for want of this, brimstone powder a large handful of horse-hoof, and give it in a quart of new milk three mornings together.

A lamb the 2 year old; in the second year it

has two broods till before, in the third year, four; in the fourth year, six; and in the fifth year, eight. They

for we are led on by certainty, but after that it is only guess work: if the goat be long, yellow, and broken, it is of a sign of great age.

22 November

Propose to narrow your lands, either by a new pasture or meadow -

The following is said to be a certain Secret for the

regiment the top of lands by fens: - first spread a quantity of tar, train oil, and black brimstone;

deep the lands as soon as possible with a sack of this Distinct as will lie on a half year. By

travelling the places where the peat is one kept with this mixture they will be equally secure. London Chronicle March 19, 17810 -

Make & repair your ditches, clear your water-courses,  
repair your quibrit hedges, by laying the thorny  
down in gaps, or open places, where the fence  
is thin at & bottom, and if there are throats of  
the way through, in order to make them broad &  
lie easy. If the hedge be over so ragged &  
thin, provide the tops will meet, <sup>the young hedges will shorten</sup> they will make  
a good fence. —

Early lambs are now dropping, then the ewes  
to kemp, if you have any, which will follow  
the lambs quickly, but if the weather be wet,  
and the ground soft, it will be too cold for  
the lambs, in this case, make the thorny  
and take them to the bars or gorse land.

Search the latter end of the month, if the  
weather be open, see whether, whether for feed,  
fodder, or feeding on the ground. —  
Drop your feeders. — Cut and spread

cut-hills — by which means, the earth, being exposed  
to the sun, dries, with the dew, which will  
or the sun, dries, with the dew, which will

with cakes made of malt-flour, mixed up with oat  
-wort, or a cake made of rye-flour, mixed with  
buckle water, or give them limbeck Sygar. Also  
turn up the hair, and sprinkle it with salt  
sweat-wort, or brack-water.

January.

I lead you monthly or low land, or any other  
wherever you can find water. In order to this,  
take in the water out of any river or stream,  
at the highest part of the falls, convey it  
first along the back of the said falls, by a trunk  
Surface-hoop, or drain, about a foot wide,  
and the same deep, at about every ten yards  
distance, cut with a plow, a furrow sloping one  
of the hills, so that when the furrows are full,  
the water will flow over at the lowest side,  
that one side is higher than the other.  
If the weather be frosty, carry out dung; here it is  
helps, ready for spreading, when the frost is gone.

A mild Surging Ball

of Saccharin, and Barbadoes Alcorn, of each  
four drachms, - of cream of Tartar, Saltp. Soder,  
and gorda ginger, of each one drachm - of  
Sugar and Jaffon, of each half a drachm -  
mix up with Syrup of Marsh -

Saccharin Alcorn one ounce - Jammy one  
drachm, gorda ginger two drachms - Saltp.  
one drachm - Oil of Amisk 50 drops, - make  
up with Syrup of Marsh.

Saccharin Alcorn one ounce - Rector of Tartar one  
ounce - Jam half an ounce - Oil of Amisk 50 drops.  
make up with Syrup of Marsh

J. Pater.

For the yellows in cows

Take gualder in powder ʒvi, turmeric, saffron  
ʒvi in powder, a pound of sulphur of each  
one oz, grain of paradise three grains, the de  
sired in a sufficient quantity of ale to make a drink

Stool Water Do

Take common & each alum of each ʒvi or  
Roman vitriol & cochineal each ʒi grains to  
be boiled one minute in a quart of spring water  
to be given like warm. The mineral to be  
footed two hours before & two hours after.

A Stoptick Water

Take each alum one ounce, white copperas  
two ounces, cochineal two grains, beat these to a  
fine powder, beat ʒvi of spring water & let it  
stand till cold, then put in the powder &  
bottle it for use. Hold a pint of this water stopp  
staying of blood in a cow.

Cleansing Potion

Green sulphur in powder 1 oz, Elixain seed in powder  
ʒvi, Flour of sulphur 1 oz, Grain of Paradise in  
powder ʒvi

There is Ammoniacum before we extract the following  
Article: - After dipping is short, and its cancer  
with a mixture of spirits of sulphur and oil,  
equal parts; it will protect the Ammoniac from the  
"bad effects of a cold night, and promote the growth  
"of wool, and it costs only three half pence. It  
"is mentioned with good effect in Ammoniacum."  
The second remedy sent, July 28 1812 -

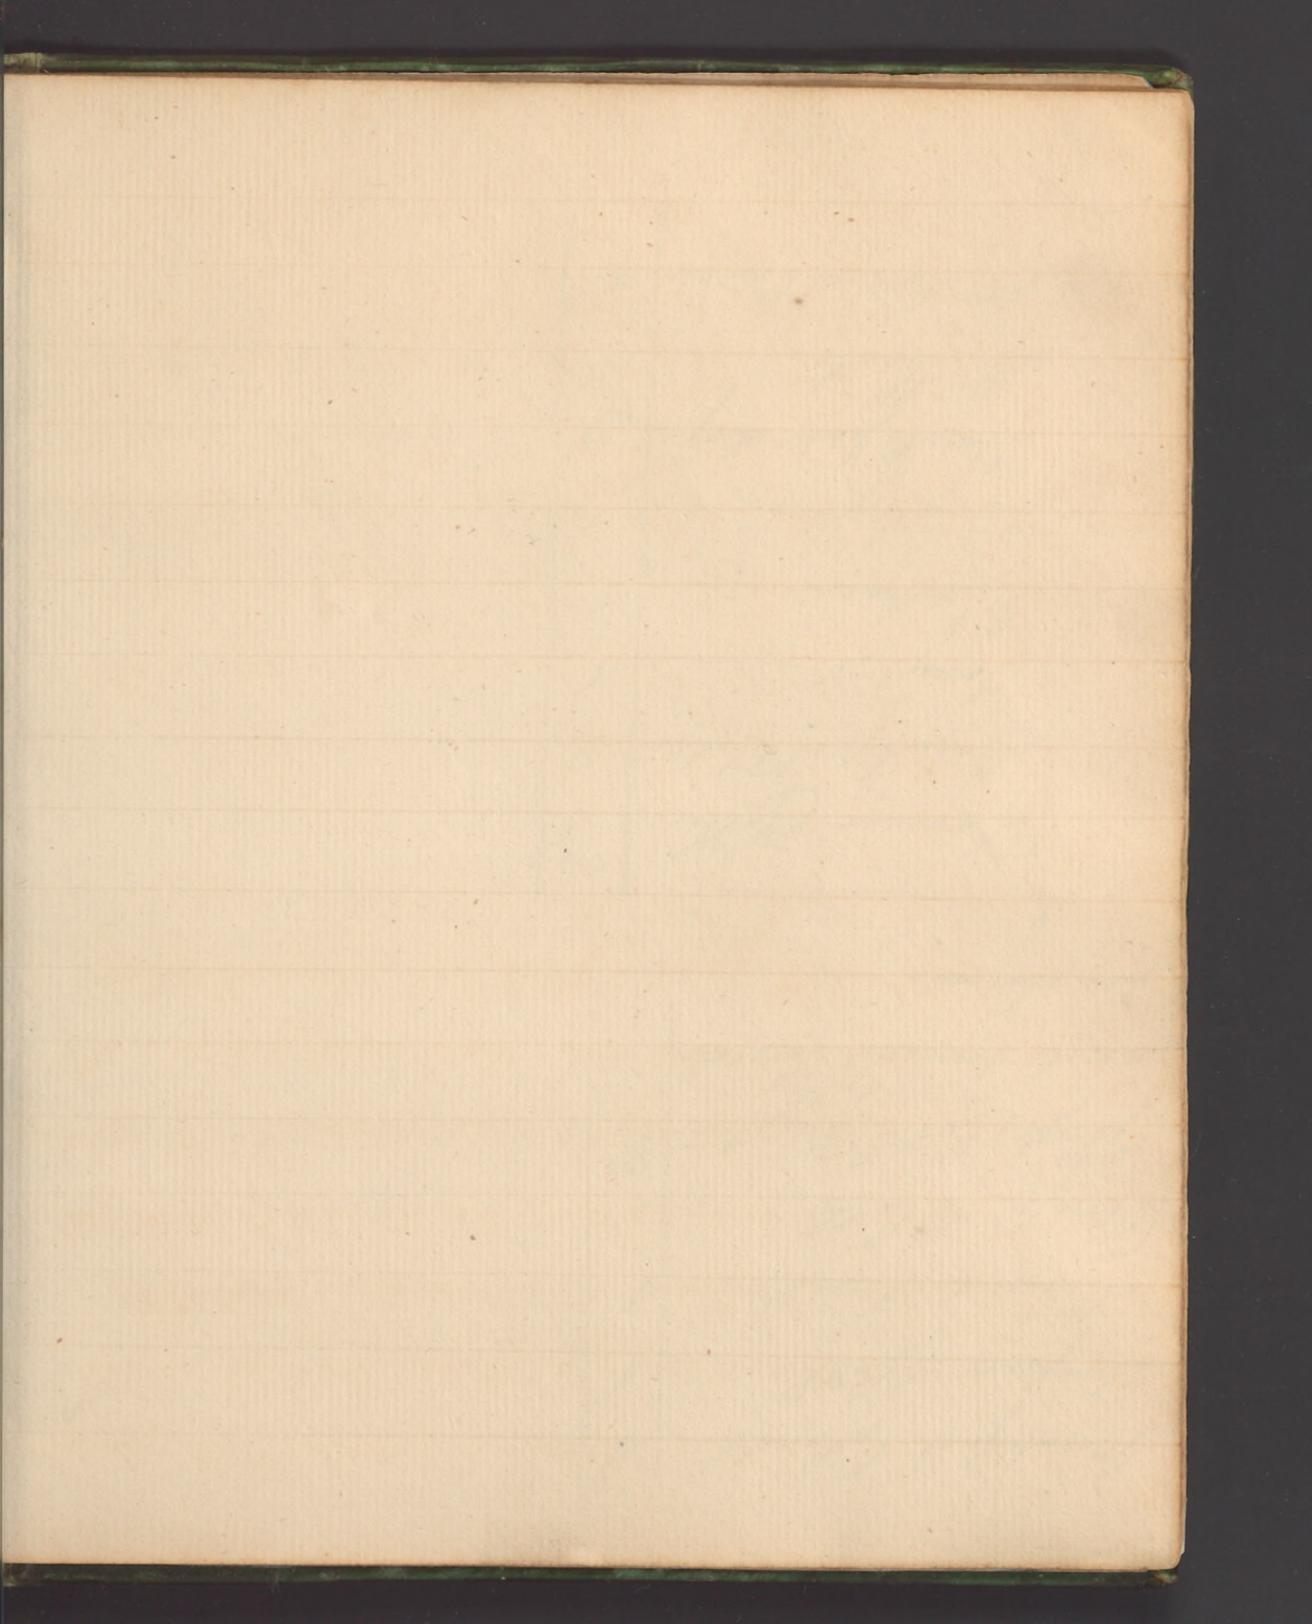

### Green wash for Cuts

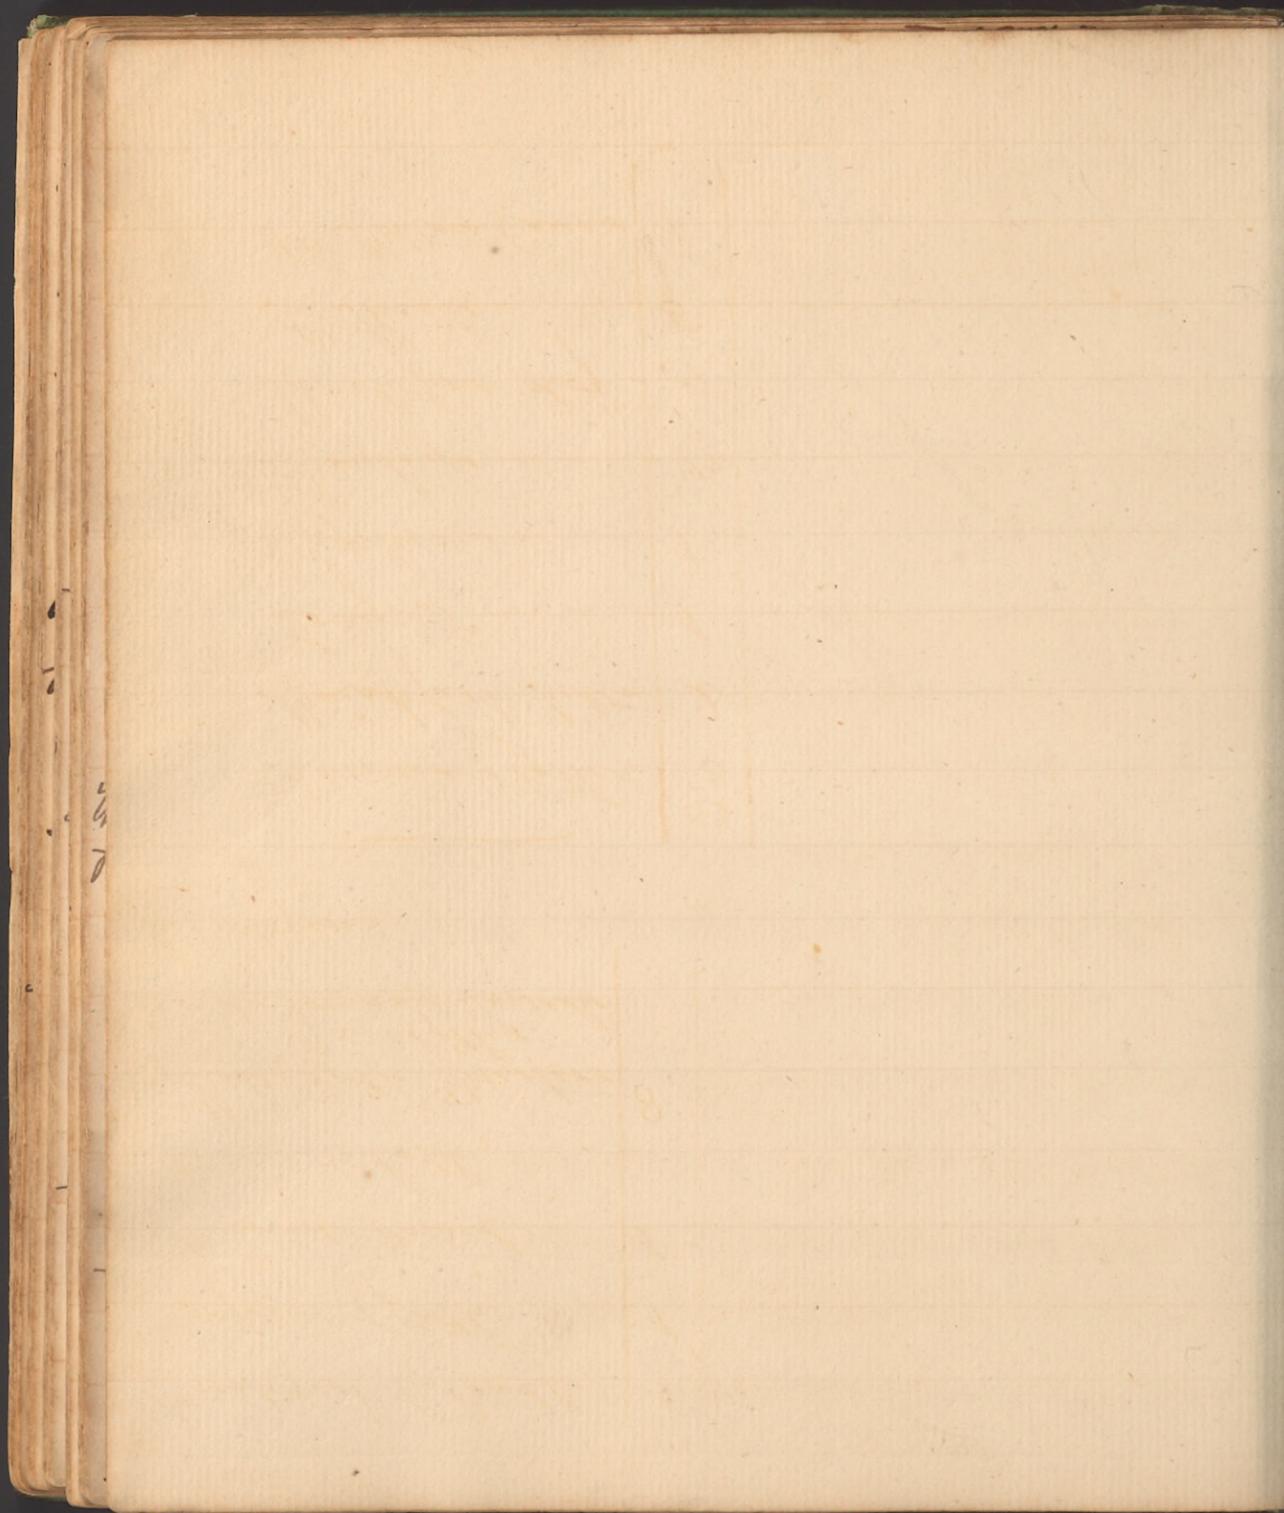

Washing - Sops & water mixed up like  
White wash - from last summer's green  
to make the shade wished -

The following method for counteracting the effects of  
Lardum is preferred. - (From a Post 1812 Phylog)

Green juice taken immediately after an emetic  
& prevents the redness & appearance of death &  
consequently prevents life -

*[Faint, illegible handwriting, likely bleed-through from the reverse side of the page]*

A common paint for the outside  
of rough timber

Put as much wood ash to every 100 lbs  
with as will make it the thickness of paint  
Put on a or 3 coats if necessary - Take care to  
give it without lumps. -

The load goes from Ashport every Monday & Wednesday  
to the galley, carp & charring carp, on Saturdays  
to the grey iron, brought - sit out from the  
grey every day at seven o'clock to meet  
my load - Ashport April 20, 1800

Coal 500 - 200 a gallon, half an anchor is  
about 3 gallons - one pound of red, about 1 1/2  
a lb, to one gallon - to be used boiling hot.  
- The bottom will be very dry - a quart of  
green oil to one gallon will make the break  
work better.

Caution to keep stirring the ingredients to prevent them  
adhering to the pot, should not be taken off the stove,  
while boiling. -

Receipts to make Bleaching

One oz of gum rosin dissolved in a pint of ale  
& one oz of strong black mix'd together for use.  
M<sup>r</sup> Hoag's tank to preserve them & burn not in burning -

Ten oz of strong black, & one of coarse sugar, a  
lump of alum about as big as a large nutmeg  
boiled in a quart of small beer to a pint.

Or burning-oil, then one or more; when laid by out they  
a lb of a lb of strong black. a lb of a lb of coarse  
sugar, the white of one egg & a quart of beer.

Beet stem well together; <sup>the water just with a spoon</sup>  
Booth of strong, when not in burning. <sup>to burn them. 2. - 1.</sup>  
2 oz of strong black in a lb of greenle & pint  
of ale boiled together.

A lb of a lb of strong black, in an oz of gum  
rosin, in an oz of brown sugar candy in a quart of  
small beer cold or hot.

A lb of a lb of strong black a lb of a lb of brown sugar  
grind with a pint of old strong beer.

A Bleaching ball

Beet root 1/2 lb, soft soap, lard, brown sugar candy in  
pink powder, strong black soap, half the weight  
of sugar candy together with a glass fine, then cold  
the soft soap & afterwards the strong black, when of  
a proper warmth pour it into a ball. A
