ad libitum

No: 07 / To make Rose Pomatum.

To one lb of fresh Lard, put a small spoonful
of Basket salt, and as many Rose leaves with the farina
as you can possibly mix in it, squeezing them well
with the hand to press out the Juice, put it in a stone
Jar, and set it in a pot of cold water on the fire, and
boil near 2 hours, then strain it through an hair sieve;
the Jar must be stop'd very close, and not more than
three parts full. If you cannot get a sufficient quantity
of Rose leaves at onetime, they may be added the second, or
third day before boiling it.

No: 08 / For the Rheumatism.

Two oz of Gum Guaiacum, 2 oz of Turpentine, and
one pint of best brandy.

No: 09 / For humorous Cancries. Dr. Waacen.

Two oz of elder flowers, and a broad fig, beat them in a
Mortar, till they come to a paste, then boil it in half a pint
of Milk and water, dab the part affected with this liquor, on
a fine rag frequently.

142/ Public Advertiser October 24th 1707

Cure for a Cancer, by the use of Clove, alias,
Goose Gras

The method to be observ'd, is to abstain from salt
meats, & use only thin Diet, & twice a Day between
meals drink $\frac{1}{4}$ of a pint of the juice of Clove,
which is prepar'd by pounding & squeezing them
at the same time using the Juice boil'd & mix'd
with Hog's Lard so as to make a very soft green
ointment, & constantly apply it to the wound
laying the bruis'd Clove over it, refreshing it
as often as it dries, taking particular care to
keep the wound clean, This was practis'd for six
Months, & a very bad Cancer heal'd; should be
taken every Spring to prevent a return.

Recipe for making the Ointment

To a pound of fresh Liquor of Hog's Lard fin'd
without salt, put as much Clove as the Lard
will moisten, & boil it over a slow fire, often
strain it thro' a Cloth, & when cold take the
ointment off from the water that will remain
at the bottom - Physick ought to be taken, & the

Juice drank at least a week before the
Ointment is us'd. The Patient should
take a mercurial dose or two previous to
drinking the Juice. The Person was not
cur'd but better in six Months, & cur'd in three
after —

143/ For a Cough in Power, early perceiv'd.

Two Table spoonful of Spirit or Salt of Barkshorn
in warm Ale, sweeten'd with Syrup of Apples,
a quart or three pints of Beer is sufficient —

144/ Pectoral Infusion, for a Cough in Power.

Raisons ston'd half a pound Licjiorice root
split, or buis'd 3 ℔. white Bone hound 3 ℔.
infuse in 4 or 5 quarts of water boiling, & let the
whole stand cover'd up two or three Hours, strain
it off without pressing, for use —

145/ "Balls, worth Attention" —

Antimony in powder ʒ ℔. brimstone powder'd 4 ℔.
Gum Ammoniacum, pounded Garlic, & Soap each 4 ℔.

Venice Turpentine 3 ℥² Anniseeds, Bay Berries,
& Linded in powder 2 ℥² each, form the paste with
Honey & Caymel of Squils; Give a Ball daily for
a Month, omit 5^o & repeat again, being cautious
not to give too much Hay

146) A mixture for a bruise'd back, by the
Saddle, or any kind of bruise, or wringing of ^{the} ~~back~~

Extract of Saturn 1/2 ℥²
Camphorated Spirit of Wine 2 ℥²

One Hundred Oysters, pour the Liquor from them, bruisse them very small with your hand, then throw over them an handful of Salt, let them stand 3 or 4 Hours, then boil them, scumming them very clean, strain them through a Sieve, then take the Liquor that comes from them, first, & put with them over the Fire - To every quart of Liquor put a Drachm of Mace, 2 Cloves, pepper, & grated Nutmeg; 2 or 3 spoonfull of Vinegar, or a quarter of a Pint of White Wine, a little Salt, Boil the whole $\frac{1}{4}$ of Hour -

165

Oxford Sausage Meat.

Take one pound of the lean part of a Leg of Veal, one pound of Pork, one pound of Beef-Suet, a little brown Sage, chop them all together, very fine, cannot be too fine, add 5 Eggs, with some pepper & Salt to your taste, mix them well together, & they will be fit for use. It is better to put the Eggs as you use it, as it may other-

166/ For a Cough or Shortness of Breath.

Take 2 Oj. of Honey, 1 Oj. of Sweet Oil, 2 Oj. of white Sugar of Candy pounded, 4 Oj. of the best Raisins of the Sun, ston'd, & pounded, one Glass of Rum, two Teaspoonfulls of flower of Brimstone, one pennyworth of Licorice powder, mix all together, take two or three tea spoons full of it every Day, or when the Cough is most troublesome.

167/ Cherry Brandy.

Take 12 pounds of cherries, with the stalks ^{take} pull'd off, put them into a Stone Mortar, & pound them, then put them into a Preserving pan with three pounds of Lump Sugar, then boil it up, ~~and~~ let it stand till cold, then put it into a Stone Jar, & add six quarts of Brandy, shake it once a Day for 3 weeks, & then filter it off for use; corking it well.

168/

To clean Carpets.

Take a pint of Bullocks Gall put into a large pan of hot water, wet a flannel & rub it over the Carpet as far as you can reach, then take a piece of Soap, & rub over the part that is wetted, then have a Pan of clean water & wash off the Soap very clean with another flannel, then rub it dry with a Linnen Cloth.

169/

To dye Yellow.

stain

~~Take a pint of Bullocks Gall put into a large pan of hot water, wet a flannel & rub it over the Carpet as far as you can reach, then take a piece of Soap, & rub over the part that is wetted, then have a Pan of clean water & wash off the Soap very clean with another flannel, then rub it dry with a Linnen Cloth.~~

169/

To dye Orange Colour,

One oz of Annoda, 3 Ouz of Pearl Ashes, boild in 2 Gallons of soft Water till dissolved, strain it through a sieve, boil your linnen or Cotton about ten Minutes, then put it into cold

Spring Water, wherein some Allum has been dissolved.

170. To Dye Yellow. X ^{two} ^{Leaves}

One Oz. of Turmeric put into three pintes of skimmed Milk, let it boil a few minutes, strain it through a fine Sieve, or Cloth, dip in what you wish to dye, have ready some Allum Water to renece it in, as soon as you take it out of the Dye; You must neither dry it near the fire, nor in the Sun.

171. For Fish Pickle.

Take Walnuts when fit to pickle, pound them & squeeze them thro' a coarse Cloth, let the liquor stand a Day or two, to settle, then pour off the Clear; & to every pint of Liquor put a pound of Anchovies $\frac{1}{2}$ Ounce of Mace $\frac{1}{8}$ of Cloves, $\frac{1}{8}$ of Sannaica Pepper; boil them together till the Anchovies are dissolved, strain it off, to every Quart of Liquor, put half a pint of Vinegar, 16 Shallots, 2 Cloves of Gallic, boil it up again, till the Shallots are tender, let it get cold, then bottle it lightly.

172. J. Torri's most Specific for Plunders.

Succotrine Aloe (pulveriz'd)	10 Drachms.	^{according to the Edifica} or ℥ss
Jalap	1 ℔	Galias ½ ℔
Globor Vacti	½ ℔	Galias 1 ℔
Castile Soap	1 ℔	
Ginger, in powder,	1.	Tea spoon full
Salad Oil	1.	Table Spoon
Oil of Cloves	20 Drops	

form into a Ball with Syrup of Buckthorn
q.s.

173. Loyster Sauce - to keep 3 years.

½ ℔ of Mace
 ½ ℔ of Cloves
 one middling siz'd Nutmeg, 20 Anchovies,
 (all pounded as fine as possible, first separately
 & then together) a large handful of Salt, ½ a Tea-
 spoonful of Xian Pepper -
 Mix all these Ingredients in a marble Mortar
 with a Quart of Sherry, then pick the Fish out of

The Sails, Claws, &c of four large, or five small
Pea Shells, bruise them gently with a ^{some of the} muddure
& put them into the Liqueor - put it into
wide mouth'd Bottles, or small ston Jar -
pitch the Corks well - Stir the Bottle, or Jar,
before you take out the Sauce - Two Table
Spoonful, will be sufficient for a Sauce Boat -
Add a little Lemon Juice before serving it up.
Major L - 96 - n

174 R. To make Ginger Wine. -

To ten Gallons of Water, put twelve Pounds
& $\frac{1}{2}$ of loaf Sugar, the Whites of eight Eggs well
beat, stir them well together, & set them on the
fire, & when near boiling skim it very well,

bruis it, & put it into the Liqueor whilst boiling,
let it boil 20 Minutes; then pare the rind of ten
Lemons very fine ready against the Liqueor is brild

then pour it boiling hot on them; when it is
cool put it into the Cask, with two Spoonfull
of good Barm, the Lemons must have the
inner Coats peel'd off, & afterwards slic'd &
every Pip taken out, the slices to be put into
the Cask, with $\frac{1}{2}$ lb of Singlass. You must
not stir, but close it up the next Day, it will
be fit to bottle in a fortnight or three weeks.

175 / Q To make Dutch Fish Sauce.

Take the Yolks of 2 Eggs $\frac{1}{4}$ of Butter,
2 table Spoonfull of Water, & one of Vinegar,
put it into a New Pan & stir it till it boils.

176 / Q. To attract Fox, Hare, or Rabbit.

Oil of Rhodium - 9 drops
℞ of Parsley - 24 Drops
℞ of Thyme - 7 Drops
℞ of Marraways - 12 Drops
with the dropping of a Red Berry.

177/ R. For drawing of Rats & Mice.

Oil of Rhodium - 10 Drops

Oil of Carraways - 6 Drops

Oil of Earth Worm - two pennyworth

Oil of Thyme - one pennyworth

Oil of Swallows - one pennyworth

Oil of Cloves - One Drachm

Musk half a Grain -

Mix the whole together in a bottle keeping
it well cork'd - "Drawing only"

170/ R. For killing Rats & Mice.

Take half a pint of Oatmeal

One ounce of ~~Sulphur~~ ^{Sulphur} Sublimat^e

2 Ounces of Hogg's Lard - Make it into

a stiff Paste adding 40 Drops of the
drawing Oil mix as above & work'd into
it - When you lay this put some Water

near; - "The whole should be laid under lock"

Q. 179. For the yellows, in Horses.

First bleed your horse, taking off 2 Quarts,
Then take Salt Nitro, Juniper Berries, Turmeric,
of each 2 Oj. Madder, Castile soap of each 1 Oj
Succotrine Aloes $\frac{1}{2}$ Oj Saffron 1 Drachm, pulverise
the hard things, & cut the soap in small pieces
mix these Ingredients with 3 Gills of warm
Ale, & a large Spoonful of Sugar. - Give four
of these Drinks, every other Day One; omitting
the Aloes in the three last. Refresh & warm
water, thrice a Day. - - -

180. To make Irish Usquebaugh -

Rosa Sola, 1 lb. Brown Sugar Candy 0 Oj
Liquorice root 4 Oj. Cinamon 3 Oj. Mace $\frac{1}{2}$ Oj
Nutmegs $\frac{1}{2}$ Oj. Cloves & Cochineal each $\frac{1}{4}$ Oj
Anniseeds 4 Oj. best saffron 1 Oj. 5 Grains.
The rind of one Large Swille Orange, & the same
of a Lemon. - Six quarts of the best french

Brandy - Slice the Licquorice & bruise the
other Ingredients; & Infuse the whole for a
fortnight or three weeks - Shaking the Bottle
once or twice a Day, then strain & filter it
off for use, put it into strong Bottles, & cork
them well, (or wire) with two or three Leaves
of Gold in each Bottle

101. Re To make Good Ink -

Best blew Galls one Pound, bruise in a
Mortar, Gum arabic $\frac{1}{2}$ lb. Green Cooperas 3. oz.
1 Spoonful of Dyers Indigo - These Ingredients
put into an earthen ~~Be~~ Pitcher, with a
Gallon of Water (soft running water) keep
warm, let it stand in the Chimney's corner
9 days, stir it twice a Day, then strain it off
for use

Probatum est
B

102. Rj To make Tint.

One Pound of Virgin Honey Melted,
well scimm'd - mix'd with a Gallon
of Port - The same proportion will do
for any Quantity -

103. Rj Mixture

Two ozs of Double refin'd Sugar,
melted, put into a quart of Water, till well
mix'd, may be applic'd to ^{the same} quantity
of Spirit without Improv'ishing it.

104. Rj To make Red Ink.

Powder of Brazil 1.℥. White Lead & Allum
of each 2 Drachms, Gum arabick 1 Drachm.
put these into a pint of Urine - stop it
close in a Bottle, frequently shaking it -
T.B.

105/Rj. To cement or mend broken Glass
or China

The Whites of 2 Eggs, ½ ℥ of Quick Lime, beaten
to powder, 1 Drachm of the powder of calcin'd flint,
1 Drachm of Gum Sassafrick - Temper them well
together, and add for the better moistening a
little Lime Juice (or Lemon Juice); then with a
feather rub it on the edges of the broken vessels,
& put the pieces together by a warm fire. And
if your Glass be light & steady in cooling it, the
fracture will be scarce discernable.

106/Sj. For the scratches, in Glasses

Black Soap 2 ℥. Train oyl 1 ℥. Roman
Vitriol 1 ℥. Honey 2 ℥. Boil the above together
half an Hour - then put it by for use - B.

107/Rj. To silver, ^{any} ~~any~~ pollish'd Metals.

Of Silver. 2 Drachms, dissolve it in 1 ℥.
of aqua Fortis, in a vial, when dissolved, put
into the vial a little Sack. Let it stand a
quarter of an Hour, then draw off the liquid

& there will remain a blueish tinge - which
is fit to silver any Metal that is polished,
& clean, rubbing it over with a linnen rag.
B.

100: B. Memorandum from M^r. Martin's
Experiments - Try &

Sound shall pass 1142 feet in one second
of time, by which you may measure the
Distance of any Cloud. B.

109: B. To pickle Salmon

Cut your salmon in Slices, wash it
well, then put it into a pan of Boiling
water, made pretty strong with Salt. -
Boil the Fish in the same, adding to it a
little good Beer Vinegar, to make the pickle
fine. - Then boil 3 quarts of the same Vinegar
with 12 Cloves, & 1/2 lb. of Black Pepper, when it
is quite cold, put the Fish into it filling
up the Vessel with the pickle the fish was
boiled in.

190/ Rj. For the Bile of a Mac Dog -
Extracted from a Newspaper case
March 29th 1753.

Take the Herb Trefoil, Mouse Ear, Dwarf Bar,
& Pruwinkle of each an equal Quantity, Dry
them very well before the Fire, then pound &
sift them very fine; Take a large spoonful
three mornings together fasting, in ^{new} milk
3 days before the full or Change of the moon.
N.B. Half the Quantity is sufficient for
a Child, & two spoonfull for any Beave
or Dog. — Note also / The above Herbs, must
all be gathered in the Month of May, & so
dry as possible; when you have made the
Quantity you chuse, put it into glass
Phials, stopd very closely.

191/ Rj. For the Consumption -
Get the Heart, Liver, Lights, & Throat Pipe, all
unwash'd, (Vulpis). Put all together into

an earthen Pot well cover'd, which put
into an ~~Beer~~ Oven, (after the Bread is taken
out,) till it dries gradually, fit to be powdered
in a mortar. Then sift it through a fine
Sieve, or bit of Muslin; Take every morning
as much as you can lay on a shilling,
& drink it in a Glass of White Lisbon Wine
then fast an Houe, do so likewise the last
thing when you go to bed. Persevere till the
whole is taken - - -

192. / Rej. To fine Beer, or Ale.

Take 2. Oz. of Loaf Sugar & put it over the
fire in a ~~cup~~ ~~tin~~ copper Sacle or Skillet
till it melts; put it then into a Quart of Water
the White of 6 Eggs, One handfull of Hops, beat
all together, to which draw out One Gallon of
Ale or Beer, mix it well, & then return it
to the Cask at the Bung Place -

193 / Rj. To make Super Beer

Take as much Spruce as can conveniently
boil in eight Gallons of water; boil it till it
strips clean from the stems. - then add half
a Peck of Ground malt, let it stand 4 Days,
then strain into your Cask, putting in one
pound of Treacle. - Add some Barm, let
it stand two Days then bottle for use.

194. To make Shrub - Roberts.

To one quart of Lemon Juice, fine, 2^{lbs} of Loaf Sugar,
4 Quarts of Rum, or Brandy, put it into a Cask,
stirring it, 3 or 4 times a Day, for 5 Days
following, stop it then close till perfectly fine,
then bottle it. - Instead of Lemon Juice,
may use one third of the Juice of Cowslip Orange
& so give it a flavour you may infuse the outer
Rinds of 2 Doz. of the Lemons, & 1 Doz of the Brandy
rinds, 40 Hours in a Quart of your Spirit
prior to mixing

195 / Rj. To make Bitters -

One Quart of Brandy 1 Drachm of Saffron,
2 Drachms of Cochineal, 1 oz of Gentian Root,
the outside of 3 Quills Oranges -

196 / Rj. To fine an Hogskop of Portwine.

Draw 2 quarts of the same wine, the Whites
of 2 Eggs, One Pound of Common sand, beat it
well together, then put it into the Cask, stirring
it well. If Sawney put a $\frac{1}{4}$ to of Chips of
Log wood, if it wants a Booy, put 1 Gallon
of Brandy -

197 / Rj. To fine an Hogskop of any wine

Take 2 oz of Ring Glass steep 24 Hours,
till it becomes a Jelly, beat it up with 2 Quarts
of the same wine, then strain it - & put
it into the Cask stirring the same - If
too high colour, put 2 Quarts of Summer
Milk, if it want a Face add 2 oz of melted
Loaf sugar, if a Booy, one Gallon of Brandy

198 / Rej. For the Stone and Gravel.

Take Black Berries, before they are quite ripe, just when turn'd; pick them clean from their stems, & put them into an earthen pot; tie them up close, & put them into a Kettle of water; let them stand over a fire till they are reduc'd to a Pulp; then strain them, & to a pint of Juice add a pound of powder'd Sugar, boil it to a jelly, & put it up for use

n: 13. A Gentleman, who for many years was afflicted with this terrible Complaint, was perswaded to take every Night going to Bed, the Quantity of a large Nutmeg of this pleasant medicine; the Effect of which was, that the Stone was broken in pieces, & voided in Granules, some of them nearly of the size of ~~pepper~~ ^{pepper} Corns, manifestly appearing to be proportion'd to a much larger substance. — This Gentleman, though more than 80 Years of Age, is now enabled to discharge these stony particles without much difficulty, & finds no other Inconvenience, than a frequent Irritation to make water

199 / Rej: An Extraordinary Cure of the Gout

An English Merchant in Turkey, being there on a Journey, with the Gout upon him, it provok'd him to return some Insults he had receiv'd from a Turkish officer at Baba so effectually, as to draw upon him the punishment of an Bunroo & fifty Basdinars over on the Moles of his feet; which, however painful a one it was, prov'd so effectual a Cure of his Disorder, that it never return'd again, & made him so sensible of his high Obligation to the Prescriber of it, that he every Day afterwards cranks the Health of his Turkish Doctor -

200 / Rej: An absolute Cure for Rheumatism -

Take the pickle of Barrel'd Herrings, & rub all over the parts affected, before a good Fire; wrap up in flannel; 5 or 6 Applications generally compleat the Cure, in the worst Cases.

201/ Rj: Gout's Preventative

Best Rhubarb, in powder, one Scruple, of
Calin^o Borax 1 Scruple, of purified Salt of
Ammoniac ~~1~~ 1/2 Scruple; Oil of Sinnamon
one Drop; Mix them together. To be taken
every morning (for 6 weeks in the Spring) &
the like in the fall of the Year

202. Anecdote . . . Gravel -

Mr. Petrus applying to Dr. Hill in a Case of the
Gravel, was directed to Boil Burdock root,
& was cur^d by that simple Medicine. -
Upon asking the Doctor what Recompence
he should make him, he reply^d "Tell others,
who have that sort of Gravel, how easily they
may be cur^d!"

203/ Rj: For a Consumption

Take every morning 2 oz^s of the expressed
Juice of Cowslain, mix^d with a pint
of Tows Milk, sweeten^d with Honey -

204. *Rej.* A Liqueur to wash Old Papers
and writings &c. &c. whereby they
are render'd as legible as when first wrote;
Communicated by Mr. Hol...s keeper of
The Records in the Tower

"Take 5 or 6 Gallons, bruise them & put them
"into about a pint of the very best White Wine,
"let it stand in the Sun 2 Days; you will by
"tryal soon find whether it is too strong, or
"too weak; Dip a Brush into it & wash the
"part wanting to be clear'd up -

205. *Rej.* To make Ginger wine.

Take 14 Gallons of water, 14 pounds of
loaf sugar, 4 lb. of Ginger well bruise'd, boil it
one hour, then add the Whites of eight Eggs
well beat, take off the Scum as it rises while
over the fire, then strain the Liqueur into a Tub;
let it stand till cold, then put it into a Cask
with the Rinds of 14 Lemmons cut thin with their
Juice. - Put half a Spoonful of good Ale

yeast at the Top. — Stop the Cask close
for a fortnight, the Liquor may then be
bottled; in another fortnight it will be fit
to drink; be careful to have good Corks; the
Lemons must be par'd very thin, & the Juice
well strain'd — it should be quite clear. —
Bon.

206. / Mr. An Infalible preventative to keep
the Flies from Sheep — M^r. Sw^{an}. &
11th Faulcon.

Black Sulphur	1 - lb
Tar	1 - lb
Spanish Brown	1 - lb
Black Soap	1/2 - lb
Linseed Oil	1. Pint
Train oil	1. Quart
Mercury	1. Oz
Spirit of Tar	1. Pint
Apothiga	4 Oz.

The whole of the above to be incorporat'd
together, & with some Tow plac'd in a stick split
at one end, & tie'd again firm to prevent its
coming off, soaking it well in the Liquor, press
it from the withers in a straight Line on the back
to the Tail of each Sheep — this is enough for 100 Sheep
to be us'd about 5 weeks after Shearing.

207/ Rj. For worms in Dogs.

One Drachm of Ethiops Mineral
put into some fat; give this Dose to the
Dog, 6 mornings following - keep him
fasting for two Hours after.

208/ Rj. For a bowell Complaint. *M. J. S. S.*

Coriander seeds bruise'd 1. ℥

Linna pick'd from the stalks, 1. ℥

Turkey Rhubarb, slic'd - - - 1. ℥

Saffron two pennyworth - pull'd in pieces

Cochineal in powder two pennyworth

~~Put them in a Mortar~~

Double distill'd Aniseed water 3 pint

Let them stand together three weeks, then strain
it off; Dose; "a grown Person a Table Spoonfull,

"a Child, a Tea Spoonful; you may repeat every

6 or 8 hours till the Patient receives benefit

209 / Rj. To pickle Pork.

M^r Wheeler
J. 7.

Take equal quantities of common Salt & Bay Salt, stir'd into water till it will bear an Egg, then boil the water, & let it stand so to cold before you put it to your Pork.

210 / Rj. To cure a Calf of the Scurv...

M^r Barden

Diapente 1:℥
Flower of Brimstone 1:℥
Powder'd ginger 1:℥
as much as will lay on a Shilling, in a pint of new Milk, 3 mornings

211 / Rj. To Varnish Tables

M^r Ley of Hothorthe

Two pennyworth of Achennet root
Two pennyworth of Rose Pink
One Pint, of Gole Craun Linsed Oil mix'd in
an earthen Pan, let it stand all night, then rub
some of it on your Tables, with a linnen rag, &
when it has lain on an hour, rub it off with a
clean linnen ~~rag~~ cloth repeat it 2, or 3, times
a Week for a Month, by which time they answer
your expectations if thoroughly rub'd.

212. Rej. A Poultice for sore Breasts
Or when broken M^{rs} Keale

Take half a pint of new Milk, & two Table
Spoonful of fine flour, boil it to a pap,
very fine; when sufficiently boil'd, put to
it 3. oz. of Mutton Fat, & 2. oz. of Bees Wax
shred very small, boil the whole together
very well; then take it off, & add to it two
Spoonful of Honey, & two of Sallac Oil, apply
it as warm as the Patient can bear it.

Heat no more at one time, than will be wanted
for a Dressing - Change the Poultice twice a
Day, till the Wound begins to heal, then once
a Day will be sufficient; Keep the Breast
very warm with double flannels; this
Poultice will dispel if us'd in time, or break
& heal it without any other application.

213. Rej. Blistering Ointment.

Cantharides in fine powder 1. oz. ointment
of yellow rosin, Purified Hogs Lard of each 2. oz.

mix them well together for use. Bone ^{-man} ^{Boast}

210 R. To keep flies from Apartments
Stables, Houses, &c. Extracted from Newspaper,
Evening Mail August 17.th 1806

Put into earthen pot half a pound of Cantharides,
an ounce, & a half of gourd seed; Mother wort,
Sassafras, root of St. John's wort, & spirit of Ants
of each half an oz; a Quarter of an ounce oforpiment
and a good handful of Savin; the whole cut
small, or reduc'd to powder; close the pot
hermetically, luting the Interstices of the Lid
with flour paste. After the Contents of the pot
have boild sufficiently, take it from the fire, & let it
stand 24 Hours in a cool place; then uncover the
pot, & with a feather smear the frames of the
Windows & Doors, both of Apartments & Stables,
from which you are desirous of keeping Flies

Mulberry Syrup —

Put them in a Steep Pan over a slow fire,
and when boiled to a Pulp, then strain it
thro' a Jelly-bag and to a Pint of Syrup put a
pound of powdered Sugar & boil together; when cold
bottle for use.

Panis Gallorum

Wheat Meal 3 q^{rs} of a Peck, & 1 lb of Oatmeal
of the Best sort, mix these well together,
then add the Whites of twenty new laid Eggs,
four Yolks, an ounce of best Liquorice Powder,
and as much Sugar Candy finely powder'd, half
an Oz of Caraway seeds grossly bruist, with a
Lump of good Sweet Butter without Salt, as big as
a Goose Egg, then add a quarter of a Pint of White-
wine, work & knead the whole together, till they
are thoroughly incorporated — Make this into
two or three Loaves, which must be well bak'd
but not ~~burnt~~ burnt, let them be two or three
days Old before you use them, avoid giving any of
the outside that is either brown or burnt. J. P. 1701

220/

Corn Plaister

Six parts in Seven Diacylon

One ℥. White Rosin - J. Marker

221. For a Bowel Complaint - Misp. med.

One ℥. Cardamum seeds

One ℥. Senna pick'd from the stalks

One ℥. Turkey Rhubarb, slic'd

Two pennyworth of Saffron pull'd in pieces

℥. ℥. Chineseal

Three pints of Best ~~brandy~~ distilled Anniseed
Water. - Let them stand together 3 weeksThen strain it off; a Table Spoonful for a
Grown person; & a Tea Spoonful for a Child.it may be repeated every 6 or 8 Hours till ease
is obtain'd -

222.

Goose Berry WineM^r BuxtonTo every pound of Green Gooseberries, ripe, when
pick'd & bruis'd, put one quart of Water, let it

Stand three days stirring twice a Day,
to every Gallon of Juice, when strain'd, add
three pounds of loaf Sugar, put it into a Cask
let it stand half a Year, then bottle it, when
you put it into the Cask, to twenty quarts
of Juice add one Quart of Brandy, & a little
Singlass to fine it.

223

To make Current wine.

For 9 Gallons take half a Bushel of Currants
& One Gallon of Raspberries, put them in a
little water, stalks & all, squeeze them well
with your hands, to get out all the Juice, add
as much water as will fill your Cask, add
one Gallon for waste, then strain the wine,
mix it well, with 20^{lb} of good coarse Sugar,
let it stand like the next Day, then skim off
the Top, & put it into your Cask, when it has
done hissing, put in a quart of good Brandy,
& stop it up very close, but be cautious that it
has done hissing before you stop it; it may

perhaps keep for 2 Months or longer; —
White Currants make the lightest colour'd
wine; Some put half red & half White —

224 Milk Punch — W^o Greening

Steep the rinds of 24 Lemons in a quart
of Rum, then add 2 quarts of boiling
water ⁶ 2 $\frac{1}{2}$ of loaf Sugar, two nutmegs
grated, & three quarts more of Rum, with
one pint of Lemon Juice, mix the ingredients
well together, & add two quarts of Boiling
milk — let it stand two or three hours, &
Strain it through a flannel Bag —

N.B: Most people prefer Brandy to Rum

225. Tincture of Rhubarb —

Rhubarb 1 Oz. Lesser Cardamum Seeds
husked & bruis'd $\frac{1}{4}$ Oz. Saffron 1 Grachm
Digest these in a Pint of proof Spirit
without Heat.

226

D.^r Quam's Tincture of Bark

Infuse the rinds of Six Oranges, two Drachms
of Saffron, one Drachm of Snake root, two
Drachms of Cochineal, & ʒi of the Lepor
or Camum seeds, & one oz of the best Bark
in three Pints of the best Brandy for 14
Days, shaking it every Day — A Tea-
spoonful in a glass of White Wine, or
Mint Water

Mr Lyle Moxham's Recipe

227 Rj — One oz of Bark, ½ oz best Rhubarb,
Shred or sliced — Infuse in a quart of
~~with~~ good Brandy, — Take half
a Wine Glass, fill^d with water, daily,
an hour before Dinner

228

For the Distemper in Dogs.

Rj Bruise a moderate siz^d Root of
Garlic — & mix it with two or three Table
Spoonful of Goose Grease, & give it the Dog,

repeat the same every other day, untill
Cure is effected - Increase the quantity of
Garlic, according to the Size of the Dog;
the above is sufficient for a Spaniel.
Rev. L. Lewis

20 Gr^s - Gum Guaiacum

20 Gr^s - Pilla Rusi

misc, bene terendo, in III Pic: Quid -
Duo sumenda nocturne, per sex noctes

37. Mock Turtle Take

Take Calves feet with the ~~feet~~ horny part on, nicely wash 'em, & clean 'em by scalding with boiling water & Rosin like the head; as the feet are the best part to cut up, in large pieces, to go to the Table, the remaining part of the feet ~~of~~ nearly dissolve away - Put the feet in a Stew Pan with some water, stew them well an hour & an half, or till tender. Also the thick part of the Ears, the thin part of the Ears will take rather longer stewing before they are tender; Take care to skin them well, that they may look delicately white; Cut them in longish but narrow strips; If you put in the inward Jelly part of the feet, in the Turtle Soup, the Ears & the feet will require as much stewing one as the other. -

The Sauce -

2 ^{lbs} of Gravy Beef, or the ~~top~~ muckle of Veal with 3. or 4. ^{lbs} of Meat to it, & sufficient

Meat to make some force meat Balls,
by chopping it very small & rolling it into
small sized Balls, half the size of a Pigeon's Egg,
season'd with salt, Pepper black, & Cayenne;
2. or 3. small Onions nicely peel'd & squeez'd,
thro' a Hair Sieve, one Carrot ^{to}, a small bunch of
Sweet herbs, or a little Sage, a few cloves, a little
Mace, & some Pepper White; Stew it all together
with 2. gth of Water; Scum it well, & Strain it
off, then put in the Ears, & the parts of the
feet that are sufficiently tender; Then
add a like Water ^{to} the parts not quite
tender, & let it stew again, when you can
add it to the Soup the second Day.
Boil two or three Eggs hard, Quidde the
Yolks into 4. & roll them in some of the
part of the ~~Best~~ ^{Best} of the Broth, but don't
put in the Eggs, nor Lemon Juice till
in the Tureen, going to Table, as if
you put the Lemon Juice to the

whole, it may not keep so long, owing
to the Acid Mixture - The whole when
cold will form a Jelly

M^r. Joslin

M^r. Ley's Ointment

Take 4: lbs of Butter from the Churn, with-
out being wash'd, or salted; 1/2 lb of Sun
Raisins, ston'd, put in whilst boiling hot,
let it stand till cold, ~~then~~ then put it on
the fire, & let it boil gently a quarter of an
hour, then take 6 oz of loaf sugar, mix'd
with 1/2 a Quarter of a pint of Orange flower
water, shake it well together, then put the
whole on the fire, when it begins to boil,
take it off & scum it well, then add 1 ^{lb}/₂
of Bees wax slic'd, replace it on the fire,
till all is melted & let it boil, scum it
well again, pour it into tea Cups, or
Pomatum Pots, from whence if you choose
you may remove them, & wrap them up
in White Writing Paper for Use

B: Cowslip Wine — M.^r Booth

To every Gallon of Water put $\frac{3}{4}$ of lb of
Lump Sugar, Boil it $\frac{3}{4}$ of an Hour, add
to it the Whites of 3 Eggs, Scum it well,
when near cold put to every Gallon, as
much Brandy as you may imagine
requisite for the Time you intend it to
keep —

Vj. To take Rust out of Steel

Cover the Steel, with sweet Oil, well rub'g on
it, then in 40 Hours, use unclack'd Lime
finely powder'g, rub untill all the Rust
disappears —

To take the Black from polish'd Grate Bars

With a Piece of Broad Cloth, after the Dirt is
remov'g by a coarse rubber from the purpose,
dip it into the following Mixture —
1 lb of soft Soap boil'd softly in 2 q^{ts} of Water
till reduc'd to one, of this mixture take
three or four Spoonful, & mix with Emery

of the finest quality to a consistence,
rub well with this, & finish the polish by
using Glass Paper instead of Sand Paper.

— Sauce for Pork Steaks —

A Glass of Sweet White Wine, little
Cayenne Pepper, half a pint of a Lemon
cut thin, & put into it in the morning
to steep all day, then add the Juice,
warm it with a little good Gravy,
& send it in a Butter boat, or over the
Steaks, as you like best.

— To keep Eggs —

Put unslacked Lime in Water, make it
the size of a thick pickle, cover the Eggs
with the same.

— Calves Head Turtle —

Take a Calves Head with the Skin on,
scald it clean from the Hair, split it & boil
it tender, cut it in pieces about 2 Inches square.

Then put half a Pound of Butter with two
spoonsfull of flour worked into it in a
Stue Pan large enough to hold all the things,
keep stirring it till it is brown, then put
in about 3 quarts of Good Broth, add Sweet
Herbs, viz. Thyme, Winter Savory, Sweet
marjoram, parsley, & Sweet Basil, chopp
very small indeed, put in a pint of
Sherry, or White wine, boile it a quarter
of an hour, then put in the Head, Season
with Cayenne Pepper to your Taste
put in force meat Balls, add Lemon Juice
as you please after the Soup is put into
the Tureen - To make force meat Balls -
take some ready Crust & Beat or force, minced
& chopp very fine, crumbs of Bread a little
Lemon rind mix this with a little chopp
Ham if you have any, or Tongue, roll
into a Paste with a little Butter & make them
into small Balls with rolling it in the
White of a Raw Egg, pop into water for a minute

Everlasting Beef. J. D. S.

To a large round of Beef take 3 oz. Saltpetre finely pounded, rub it well into the beef, & let it stand 5 or 6 Hours. Then season it well with common Salt, 2 oz. Pepper & 2 oz. of Allspice pounded, & a $\frac{1}{4}$ of a Pound of coarse brown Sugar. - Let it stand in this pickle a fortnight, turning it now & then, at the end of this time, it will be fit, to Dress. - But if you wish it to be very high season'd, you may let it remain a few Days or a Week longer. When you dress it wash off the Salt & Spice, & put it into an earthen Pan to Bake, with some Beef Suet on the Top & Bottom chopped small. Cover it with a thin coarse Paste, & let it bake six or seven Hours in a good steady Heat. When taken out of the Oven, pour the Gravy from it, & let it stand till cold.

It is suppos'd it will keep for ever;
but the Experiment has never been
able to be try'd, as it has always been
eaten too soon, to prove its durability.

Stew'd Peas.

Mrs. S. John

Put about a quart of Peas into a Stew Pan
with an oz of Butter, ~~to~~ some Chives chop'd
small, pepper, & Salt, put a Cover on them,
& let them stew, till the Peas are quite
tender, then add the Yolk of an Egg well
beat, & some cream, put it on the fire
again, & keep stirring it, till it is quite
Hot. Then Dish it up.

Mange Ointment. - Mack. Vals

One quart Train Oil, 1^{lb} flower of Brimstone
 $\frac{1}{2}$ ^{lb} Sulphur Vivum $\frac{1}{2}$ ^{lb} Gunpowder, A oz
Spirits of Turpentine well mix'd -
Keep the Dogs warm, & from getting wet,
During the Influence of the Operation, give

One Dose of Syrup of Buckthorn after-
wards

For a Cow that don't clean well
after Calving

Grains of Paradise, & Fenugreek Seeds, ~~of~~ of
each 2 Drachms, Annised $\frac{1}{2}$ Oj. boil'd
in a quart of Ale; If that has not the desired
effect, repeat the Dose ~~at~~ at the expiration
of the fourth Hour; It has never fail'd of answering
in Ten Cows from the second Dose — M. Dene

For the Scab in Sheep.

Tobacco Dust $\frac{1}{2}$ lb. Green Moom a large
Handful, Pulberry Roots, a large Handful or
two, flower of Brimstone $\frac{1}{4}$ lb. boil them in
Urine, Beef Brine, & Soapboilers' Lye, one Hour.
into which you may add $\frac{1}{3}$ of Sublimate water.
Shake it well when using it, & rub it well on
the ridge of the Sheep's Back

Rj.

For Sprains - - -

A. Baines

Oil of Turpentine $\frac{1}{2}$ Oz. add gently vitriolic
Acid 1 Drachm, Oil of Bays 2 Oz. mix well
with 4 Oz. of spirits of wine - famous for
sprains in the legs, Back Sinews &c.

Rj.

Blackings - - -

J. Robins

Ivory Black $\frac{1}{4}$ ^{lb} - 1 Pint of Vinegar, $\frac{1}{4}$ ^{lb} of
Treacle, 1 Oz of Brown Sugar, 2 Table Spoons
full of Sweet Oil. $\frac{1}{2}$ Oz Oil of Vitriol boil the
whole 5 Minutes

Rj.

- - - To take out Stains from white or yellow
Breeches

Mix flour of ~~White~~ Mustard & Vinegar
to the consistence of thin paste, rub it on
the part stain'd, when dry brush it off.

Rj.

Roache's, Embrocation, for the
Hooping Cough, to be rub'd on the
Back Bone.

Py. For the Hooping Cough - Lady Harrington.
The above Lady cur'd her Children with
Antimonial Wine, & a few drops of Laudanum,
The Laudanum to be taken by itself after
the Wine has either operat^d, or settl^d
quietly

To keep Ironing Pieces, & other Arms
from Rust,

Take 10z of Amphor, 2 lb Hogslard, Dissolve
them together, & take off the Scum -
Mix as much black lead as will bring them
to an Iron Colour; rub your Arms with this
till it remain on 24 Hours; then rub them
well with a linnen Cloth - they will not rust
for six months - Sporting Magazine

Py. To prevent, or help Caudid Sheep.
One Pint of Chamberlye, 1/2 lb Salt;
1/4 pint of Spirits of Turpentine mix
well together, & give every Sheep 3 Table
Spoons full - Months

Rij. For the Bloody Scour, in Calves -

Take one Handful of the rind of
Black Thorn, $\frac{1}{2}$ of Meadowsweet, or
the Roots of Turmeric, 1. $\frac{1}{2}$ of Gummin,
Seed 1. $\frac{1}{2}$ boile \mathcal{P} in 2 quart of Lye - Give
 $\frac{1}{2}$ Pint at a Time to a calf once a Day,
 \mathcal{P} J. Rowe

Rij. For a Bullock that voids Bloody Urine

Take some ^{green} Oak Bark $\frac{1}{4}$ lb. boile it in
spring water till it has stain'd the water
to a red Colour, Comfrey, Shepherds' purse
Plantain, Sage, Green Hemp, or Nettles,
of each one Handful, boile them with the
Bark, strain it, then put a large
Handful of Salt in the water, some
alum, bole armenic, chalk, or the powder
of Sea Coal. If the Beast is weak give less
than a Quart, if strong more -
One Dose generally has the persn'd

effect, but the second has always prov'd
successful - Give it New Milk warm.
J. Puer -

Ry. For the Murrain in Sheep.

Take some dried flowers of worm wood,
or Rue, powder'd, mix it with common
Salt, & give it to such Sheep, as are infected,
or likely to be infected - 1. Drachm is
enough for each Sheep, to be given in
a Spoonfull of Chamberlyne in the morning.

To Stew Pears.

M. Hamilton.

To 4. lbs of Pears par'd, scoop'd & peel'd with
Lemon Peel & one or two Cloves, add 2. lbs
of Sugar, pound Cloves, & add as much
or more, as will cover a Shilling, a little
Cochineal if necessary. Stew them in
a pint of Port Wine

R. To make Lime water

Put a Stone of Quick Lime, hot from
the Kiln, into a Milk Pan, Pour
on six quarts of boiling water from
a Tea Kettle; Stir it about till the Lime
is quite dissolved; let it stand till the
next Day, then pour off the fine
Liquor for use, taking care not to
disturb the white Deposit from the
Bottom; & that you put it into a
clean close stopp'd Jar for use.

R. - For the Scab in Sheep

Dissolve One Ounce of Corrosive
Sublimate of Mercury, in One Gallon
of clear water, then add to it, two
Quarts of common Lime water, (or
Aqua Calcis) as above.

and one quarter of a pound pint
of Spirit of Turpentine — With this
Mixture wash w^oy scabby sheep,
& w^oy part of the Sheep affected, dividing
the wool, & Rubbing in the Liqueur, so as
especially to wet the Skin, underneath,
& around the Scabs — N.B. Repeat
the washing once a week in dry weather
if not wash for a promising Dry Day.

Hoose in Cattle — M. May.

Take 2 ozs. of Flower of Brimstone, 2 oz.
Bole Armanack, 2 oz. Fenugreek seed
all pulveriz^d & very fine, then take
a large hand full of Rue, C. Garlic,
& Chimney Soot, mix all together
& pour the whole in Urine allowing
a pint to each yearling —
Then pour about a Tea Spoonful

Ingredients well, ^{on that} as much depends as
to the safety of the Sheep — For those
much infected with the Scab, each Sheep
will require 20z $\frac{1}{2}$ but 10z $\frac{1}{2}$ is
sufficient as a preventative: Begin at
the Nose, & lay on the Salve from thence
direct along the Back, by opening the Wool
so as to be able to rub it on the Skin,
down to the End of the Tail, & in the same
manner along the Belly to the Throat &
up to the Chin; three Sheds on each side;
one on each side the Neck, and down the
Fore Shank on the Outside & Inside, & the
same the Hind Leg — It must not be done
in rainy weather unless the Sheep be
kept in ~~the~~ it becomes fine & dry —

Rej. - Pro. J. Burt.

Spirit: Eth: vitolic 3i.

Tinct: Lavender Comp 3i.

Two spoonfull, to be taken when the head
is disorder'd.

M^r Pettles Beer

Water 5 Gallons, Wheaten Bran 2.5 lb, Hops 2.5 lb, Treacle 1^{lb} boil the Bran
and Hops together 10 Minutes, strain
it off as other Beer, & let it to cool, then
take some of the wort, & mix a Tea cup
of Barin & the Treacle with it then put
it into the Cask, & let it work, as other
Beer, if you should not have enough to
fill up the Cask when wanted, you may
use warm water - It will come to
drinking in two days, & if you bottle it
will be as fresh as Spruce Beer -

To pickle Pork

M^{rs} Cook

4 Gallons of Water. 6^{lb} common Salt
1^{lb} coarse Sugar - 4^{oz} Salt Petre, boil &
Strain it well, when cold put in your Beef,
Mutton, Tongues, or Pork. The Meat must
be cover'd with the pickle. - In nine, or
Ten days, it will be fit for use. - This
pickle will keep good for three months, if it
be well boil'd, & skim'd, at the end of month,
or six weeks, the month's end, the best time -
You may then smoke the Meat a week
or dry it in the common way

To cure Ham.

M^{rs} Cook

For two Hams about 14^{lb} each, put 1^{lb} common
Salt, 3/4^{lb} of ~~Treacle~~ coarse Sugar, 1^{lb} Treacle,
3^{oz} Salt Petre, 3^{oz} Sal Prunella, & 3^{oz} of pepper.
The Hams to be beat with a stick till they are
soft - The Pickle must be rubb'd into them,
before the fire, & must be turn'd, & rubb'd.

in the pickle every day for three weeks
Cheeks of Bacon, & Tongues, to be beat the
same as Hams.

Soda water

Super Carbonate of Soda $3\frac{1}{4}$ ^{oz}

Citric Acid $\frac{1}{2}$ ^{oz}

rub 'em well together into fine Powder, which
keep in a Bottle well stopp'd.

A Small Tea Spoonful of the Above to half
a Pint of Cold Spring Water makes a
Drink similar to Soda.

A Drink similar to Feltzer Water
the above Salts to be in equal quantities
to the same Portion of Water — They ought
to be made a few Hours before they are wanted
& immediately well cork'd.
