April 3, 1957.

Dear Mr. Kolb,

Enclosed find clippings from the
Even + morning SUN. The morning sun of
April 3 has been reported better although due
to abstracting a considerable amount of the
discussion of the medical Experts has been
omitted. I am sorry that he disagreed
with you in the one instant, however I am
very thankful that he agreed on all the
other issues. and it was due to your
valuable testimony that convinced his
"hysterical" mind to render a NOT GUILTY
verdict on all four charges because
"Probation BEFORE VERDICT" is a NOT GUILTY verdict
according to legal interpretation. He could
have made the "Ward prescription" charge

Frank N. Ogden, M. D.

"Guilty" and ruined my family and myself. The City Solicitor has rendered an opinion to the Board of Fire Commissioners that the "Probation before verdict" means nothing and I was allowed to return to duty immediately after the decision which made me very happy. I voluntarily cancelled my narcotic stamp as I found I had no need for it plus the fact that it will keep Lieut Carroll away from me and it pleased the Judge.

My family and myself will never quit thanking you for your sacrifice, your invaluable help, and your wisdom.

I will call you when I visit my son and stop by to pick up the "Reprint" you mentioned.

Best regards to Mrs. Kolb,
Gratefully yours,
Frank Ogden.
