

OFFICE OF THE
SURGEON GENERAL

UNITED STATES
PUBLIC HEALTH SERVICE

(PARIRAN)

WASHINGTON

February 21, 1938.

CONFIDENTIAL

Dear Lawrence:

Walter Treadway's tour of duty here ends in June, and in keeping with what is the present policy, I think it unwise to make temporary extensions of service for chiefs of divisions after they have completed an eight-year tour.

Naturally I think of you as the ablest person we have to take charge of the Mental Hygiene Division. This is a preliminary warning, therefore, that you will be given orders to come to Washington for that purpose.

Warren Draper is to be in Lexington on March 23-24 as a member of an entrance board. I have asked him to talk to you about a number of personnel problems in the Division when he sees you at that time.

With best regards, I am

Very sincerely yours,

Tam

Medical Director Lawrence Kolb,
U. S. Public Health Service Hospital,
Lexington, Kentucky.
