Ellis Island, N.Y.,  
July 23, 1926.

Dr. Carleton Simon,  
116 East 55th Street,  
New York City.

Dear Dr. Simon:-

I wish to thank you for your letter with its very illuminating information about the narcotic drug situation in New York. Your estimates have a special value based as they are upon data collected over a period of year, during which time you were in charge of the Narcotic Division of the New York Police Department and upon <sup>service</sup> of other places. I note with some satisfaction that your figures for the entire country do not differ greatly from mine. I have received your supplemental letter making the correction which had been noted.

With kindest regards,

Sincerely yours,

Laurel Hall.
