

Veterans' Hospital No. 37,

Waukesha, Wisconsin,
April 28, 1922.

Honorable Hanford MacNider,
National Commander, American Legion,
Indianapolis, Indiana.

Dear Sir:

Please accept my thanks for your letter of April 22, 1922, expressing appreciation of our efforts in taking care of patients at this hospital and of our cooperation with the American Legion in doing this.

In administering the hospital we have attempted to maintain a high degree of medical efficiency and at the same time put a personal touch in our dealings with the patients. I believe that making their problems our own is not only compatible with the best treatment, but is essential to it in the handling of nervous cases such as we deal with here. Our policy of kindly dealing with the patients has sometimes been criticized on medical grounds, but the results we get seem to prove it to be correct and I am especially pleased that our efforts meet with the approval of yourself and your organization.

Yours very sincerely,

Lawrence Kolb,
Surgeon in Charge.
